MIGRATORY EDUCATION: INTERIM LITERACY INSTRUCTION

Using the Migrant Literacy NET (MLN) to provide interim and 'shelter in place' instruction

1

Due to the COVID 19 Virus many schools and school districts are in recess and it is recommended that children stay home.

The Migrant Literacy NET (MLN) can be used to provide 'shelter in place' interim literacy instruction for migrant students and any other students who are home from school

2

Resources available on the Migrant Literacy NET for interim and home instruction in reading

➢ Activities for parents to assist their children with reading skills as well as black line masters which can be re-purposed for home instruction in reading, writing, mathematics and study skills

➢ Online reading screeners which identify student reading needs and automatically assign online reading tutorials to meet those needs which are aligned to Common CORE standards and WIDA standards

➢ Over 300 online reading tutorials in English and Spanish for grade levels pre-k to 12 targeting necessary reading skills in the five dimensions of reading (phonics, phonemic awareness, vocabulary, fluency and comprehension) at the emergent and developmental reading levels

➢ All resources can be accessed online with PCs or tablets and smart phones using Wifi or cellular telephone service

➢ Teachers can set up student success plans, screeners and tutorials for students to complete at home or anywhere there is Wifi or cellular service. Teachers can also email or provide parents activities from the MLN to assist their children
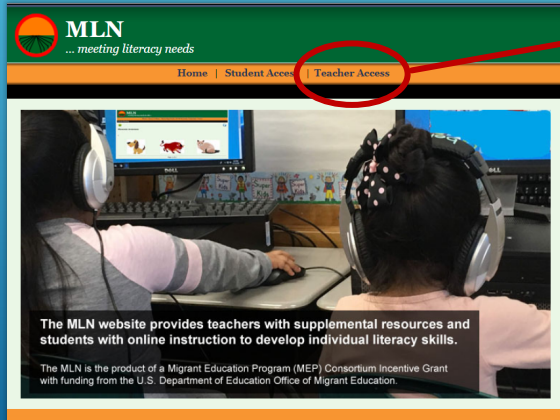

3

Steps for teachers to use the MLN to facilitate interim instruction

1. Go online to www.migrantliteracynet.com

2. Create your own user name and password

3. Create success plans for each of your students

4. Assign online screeners for students based on reading level

5. Provide the system assigned user names and passwords to all of your students so they can go online and take the screeners and access the tutorials

6. System assigns online tutorials in English and Spanish or teachers can assign tutorials to provide instruction

7. Email or provide parents information on how to support their children in system use and with activities they can do with their children to support reading
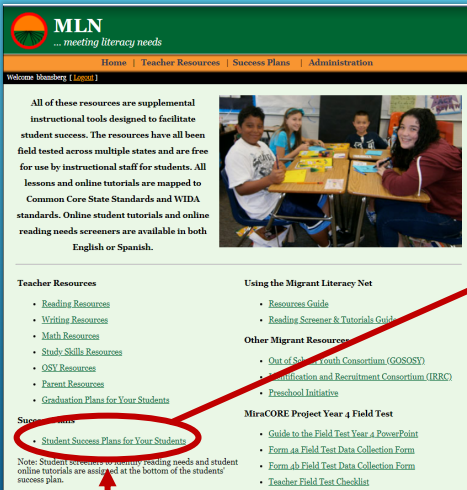

4

How to…. Steps 1 & 2 - Logon

The MLN website provides teachers with supplemental resources and students with online instruction to develop individual literacy skills.

The MLN is the product of a Migrant Education Program (MEP) Consortium Incentive Grant with funding from the U.S. Department of Education Office of Migrant Education.

5

How to…. Step 3 – Create Success Plans

Find Student   New Student

New Student Information:
Last Name: Aguilera
First Name: Sofia

Add Student

Delete Student

Success Plan: Individual Literacy Plan

Last Name: Aguilera   First Name: Sofia   Grade Level: 2
State: Utah   District: Nebo   MSIX ID:
Type: Migrant Student

All of these resources are supplemental instructional tools designed to facilitate student success. The resources have all been field tested across multiple states and are free for use by instructional staff for students. All lessons and online tutorials are mapped to Common Core State Standards and WIDA standards. Online student tutorials and online reading needs screeners are available in both English or Spanish.

3

How to…. Steps 4 & 5 – Identify student reading needs

B. When you assign a screener or tutorial the system creates a password for that student

C. Provide the user name and password to the student

D. Student clicks on 'Student Access' and then logs on

A. Screeners are assigned on the Success Plan (in the middle)

7

How to…. Steps 4 & 5 – Identify student reading needs

Screeners and tutorials all have audio and graphics and can be assigned in English or Spanish.

Students can complete the screeners and tutorials at home or anywhere there is Wifi or cellular service

Student logs on and then clicks start to complete assigned screeners, which will then identify reading needs.

The system will then automatically assign online tutorials which provide instruction based on needs

8

How to…. Step 6 – Provide instruction anywhere with online tutorials

Students work on tutorials assigned by the system (through the screener results) or assigned by the teacher. All tutorials have a pretest and posttest to monitor progress. Results are recorded on the students success plan

9

How to…. Step 7 – Provide parents with activities to assist their children

10

How to…. Step 7 – Provide or email parents copies of black line masters of lessons and/or activities to assist their children

11

To learn the system…..

1. Create a username and password for yourself
2. Logon and click on 'Success Plans For Your Students'
3. Create a Success Plan for yourself or use an alias
4. Assign yourself a screener
5. Logon as a student using the user name and password the system created when you assigned yourself a screener
6. Complete the screener intentionally missing three items in a row. Tutorials will be assigned to you based on items missed
7. Try one the tutorials assigned to you
8. Check your pre and posttest scores on the tutorial on your teacher login
9. Review the other resources on the system
10. The resources are free and can be used for <u>all</u> students (Migrant, Title 1, EL, etc.)
