

2019-20 List of School Improvement Interventions, Strategies, or Activities by District/School

The Every Student Succeeds Act (ESSA) requires that districts/schools spend 1003 School Improvement federal funds in support of evidence-based interventions, strategies, and activities to positively affect student outcomes. The interventions, strategies or practices funded by 1003 funds must meet the ESSA defined levels of evidence of **strong**, **moderate**, or **promising**. For more information on the evidence levels, please click [here](#).

In accordance with USDE reporting requirements, the Mississippi Department of Education has published a listing of evidence-based interventions that have been selected to be funded and implemented in schools with the following identifications:

Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI). The table below provides a list of the categories for the strategies districts/schools select when identifying strategies within the school improvement application found in the [Mississippi Comprehensive Application System \(MCAPS\)](#).

1003 School Improvement Evidence-Based Interventions Strategy Categories
Early Childhood (Pre-K) Programs - Interventions, strategies, or practices that are intended to support the implementation of early childhood learning practices or programs.
Evidence-Based Instructional Resources (EBIR) Interventions, strategies, or practices that are intended for use in its various forms to improve or support instructional practices.
High Quality Instructional Materials (Note ²) - Interventions, strategies, or practices that are aligned with MDE High Quality Instructional Materials Requirements.
Increased Learning Time - Interventions, strategies, or practices that are intended to support an increase in the traditional school day to improve or support instructional practices.
Leadership - Interventions, strategies, or practices that address the development of school leaders.
Ongoing, Job-Embedded, Professional Development - Interventions, strategies, or practices that are intended to support the use of deep and continuous professional learning to improve or support instructional practices.
Other (Note ¹) - Interventions, strategies, or practices that are not aligned to the named categories intended to improve or support instructional practices.
Technology Integration - Interventions, strategies, or practices that are intended to support the use of technology in its various forms to improve or support instructional practices.

NOTE¹: The strategy categorized as “Other” indicates the strategy was not categorized by one of the named strategies in the table below by the district/school. The category other includes, but is not limited to, such strategies as interventionists, acceleration, remediation, tutoring, professional learning, instructional personnel.

NOTE²: The use of the category High Quality Instructional Materials (HQIM) is intended for resources that were selected utilizing the MS Department of Education (MDE) process for the selection of HQIM or resources that are on the MDE textbook adoption list that have been identified as HQIM.
