**OFFICE OF CAREER AND TECHNICAL EDUCATION**

- E. Approval to revise State Board Policy Chapter 56, Rule 56.1 – Distance Learning, Blended Learning, and Online Courses  
(Has cleared the Administrative Procedures Act process without public comments)

Background Information: State Board Policy Rule 56.1 is being revised to eliminate reference to the Mississippi Virtual Public School (MVPS) which is obsolete and clarify that courses are only in grades 6-12.

The public comment period was open from January 18, 2024, through 5:00 p.m. February 17, 2024. The MDE received no public comments.

Recommendation: Approval

Back-up material attached

## Part 3, Chapter 56: **Distance Learning, Blended Learning, and Online Courses**

### *Rule 56.1 Distance Learning, Blended Learning, and Online Courses*

## **Chapter 56: Distance Learning, Blended Learning, and Online Courses**

### *Rule 56.1 Distance Learning, blended Learning, and Online Courses.*

This policy provides guidance to Local Education Agencies (LEAs) regarding the use of distance learning, blended learning, and online courses through the Digital Education Network (DEN) and courses approved through the Mississippi Online Course Application (MOCA) process, and other distance learning/online course providers not already approved by the Mississippi Department of Education (MDE). The MDE does not accredit online programs or schools, but rather approves individual online courses for use in Mississippi schools.

For the purposes of this policy, distance learning is defined as a technological delivery model in which regularly scheduled real-time instructions occurs during school where students and instructors are not in the same place and in which a Mississippi-certified teacher is responsible for providing instruction. Blended Learning is defined as a hybrid instructional delivery model where pupils are provided face-to-face instruction in part at a supervised school facility away from home and in part in a computer-based, internet-connected learning environment with some degree of pupil control over time, location, and pace of instruction and in which a Mississippi-certified teacher is responsible for providing instruction. An online course is defined as a course delivered through an interactive computer-based and internet-connected learning environment by a vendor/provider in which students are separated from their teachers by time or location or both and in which a Mississippi-certified teacher is responsible for providing instructions. These courses must be approved through the MOCA process. Currently approved courses in which the content is adapted into a learning management system, delivered by a district employee/classroom teacher, and used with their students virtually or in a blended model do not require approval through the MOCA process. These online courses would be subject to local district review and would qualify for use of the face-to-face course codes found in MSIS and the Approved Courses for Secondary Schools of Mississippi.

1. The Digital Education Network (DEN) is a distance learning system that has been approved by the MDE. This system links certified teachers in one school with classes of students in other schools or districts as a means of delivering real-time instruction. These courses are listed in Mississippi Student Information System.
2. For blended learning courses in which an LEA provides a face-to-face instruction with a Mississippi certified teacher, no prior approval from the MDE is required. For online programs or computer-assisted instruction in which an LEA is using for the sole purpose of credit recovery, no prior approval from the MDE is required. For online dual enrollment courses through a Mississippi Community College or Institution of Higher Learning, no prior approval from the MDE is required.
3. For all online courses other than the delivery methods listed in Section 1 and 2 above, secondary courses (grades 6-12) must go through the MOCA process for approval. LEAs must submit an application to the MDE for approval to ensure that the vendor/provider's content, curriculum, and assessments are aligned to Mississippi's course standards. Courses that are reviewed and denied MOCA approval may not be resubmitted to the MDE for review for three years. LEAs are responsible for determining course funding structure. To count as a credit toward graduation, course codes must be listed in the Mississippi Student Information System. Additionally, online courses

can only be listed upon MOCA approval. There is no limit to the number of courses a student may take. Enrollment in such courses must have prior approval by the principal.

4. Any LEA that provides a distance learning/online program other than the delivery methods listed in Section 1 and 2 above shall develop and implement a distance learning and online course policy and handbook guidance that has been adopted by the local school board, and that includes the rules, regulations, and processes for online courses. The rules, regulations, and processes shall be available to faculty, students, and parents/guardians.
  - a. At a minimum, LEAs shall ensure the following through local boards policy:
    - i. Teachers are licensed by the MDE to teach the respective course;
    - ii. Background checks are conducted for the teachers;
    - iii. The content, curriculum, and assessments for each course are aligned to the competencies, objectives, and standards of the respective Mississippi course;
    - iv. Appropriate course codes are used;
    - v. A facilitator is assigned to assist students;
    - vi. Students have access to the technology needed for courses;
    - vii. Students have all instructional materials needed for courses;
    - viii. The district grading policy is followed;
    - ix. Students enrolled in the course take the required state assessments where applicable; and
    - x. Documentation is maintained on file at the central office.
  - b. At a minimum, the LEA student handbook shall include the following;
    - i. The process for notifying parents about the program;
    - ii. Minimum criteria to determine eligibility for participation;
    - iii. The number of distance learning/online courses that students can take at one time;
    - iv. If the distance learning/online course program can be used for credit recovery and/or remediation;
    - v. The courses by grade level and content area for the distance learning/online program; and
    - vi. The process for monitoring student progress and notifying parents of student progress during the course.
