

PERSONNEL REPORTS

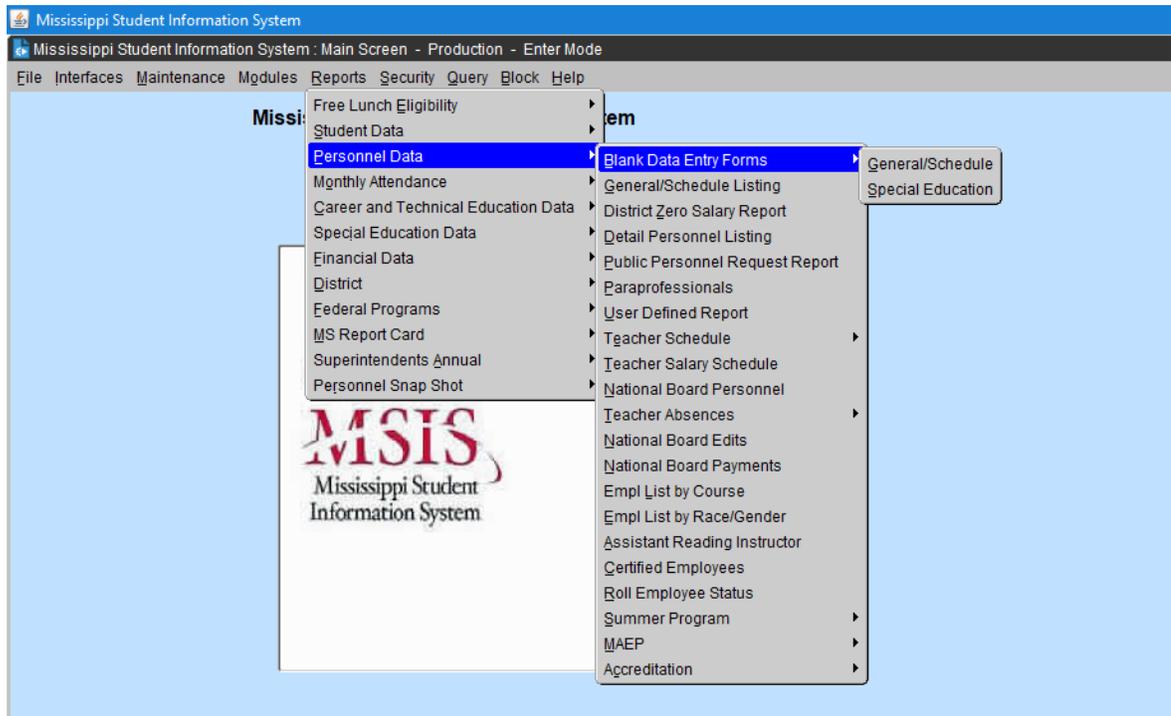

MSIS will use Adobe Acrobat Reader to preview reports. All MSIS reports will be displayed, printed, and saved in the .pdf (Adobe Acrobat Reader) file format. Once the user generates the report they have the option to view, save, or print the file from Adobe Reader. The user's security rights will determine what reports the user can run.

There are several Personnel reports available in MSIS for users with the District Personnel role.

Blank Data Entry Forms

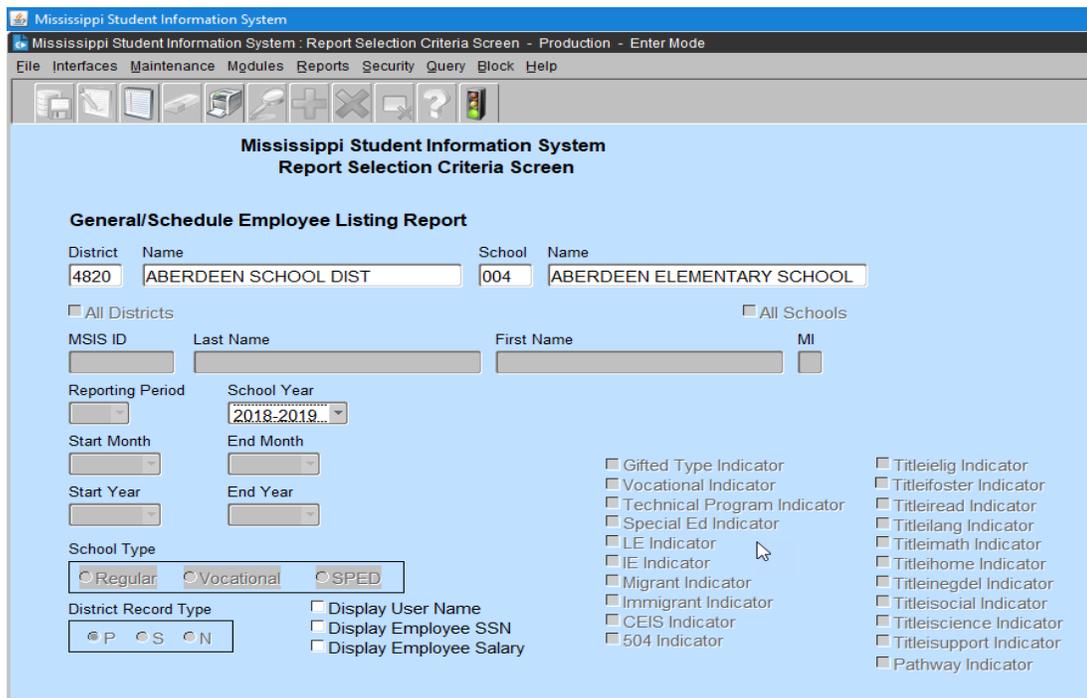

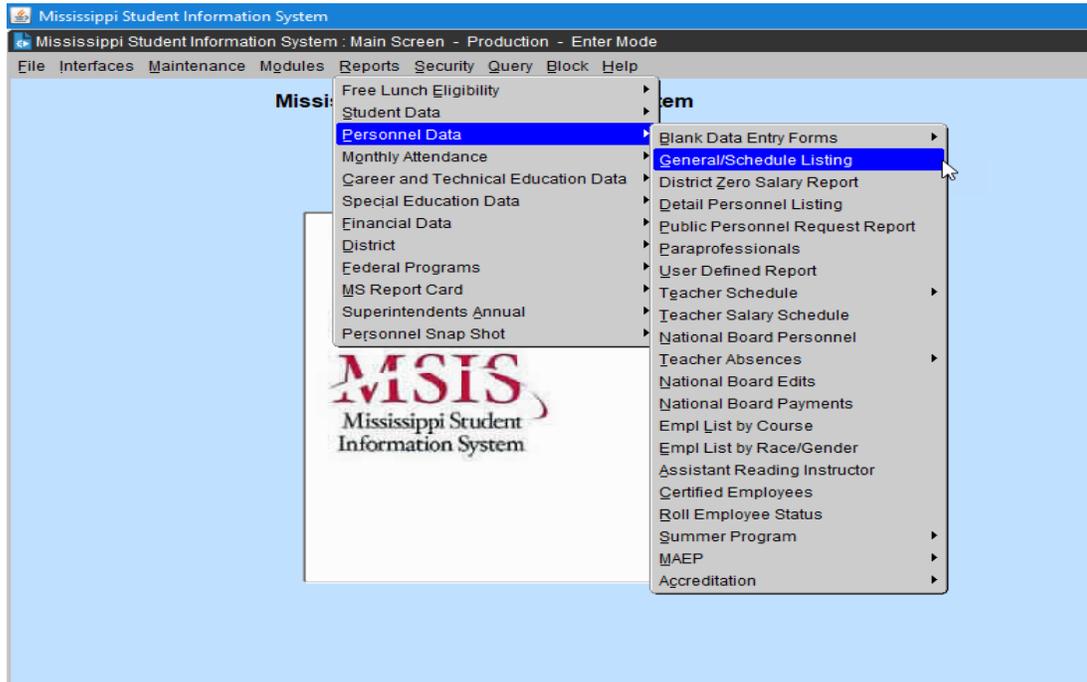

The blank Personnel forms have all of the data elements necessary for entering a personnel record into MSIS. The District Personnel Coordinator may use these forms to collect data for the employees in the district.

There are two Blank Data Entry Forms, General/Schedule and Special Education. Examples of these two reports are in the Personnel Reference Manual on pages 5 and 21. These reports can be used to collect data on new employees.

General Schedule Listing Report

This report can only be run for one school at a time. The user can choose whether to print the Employee SSN and/or Employee Salary on the report.

Click in the box to print Employee SSN or Employee Salary on report.

This report is a replication of the Blank General/Schedule Employee Entry Form, but with the data filled in. The report prints at least one page per employee. If the employee has more than 8 periods on their schedule, the schedule will continue on to a second page. If the report generates more than 200 pages you may need to print 100 pages at a time. If an Inactive employee is in the file, the employee status on the report will be "Inactive".

District Zero Salary Report

This report can be ran for one school or all schools in the selected district.

This report prints all employees for the district with a zero salary where applicable.

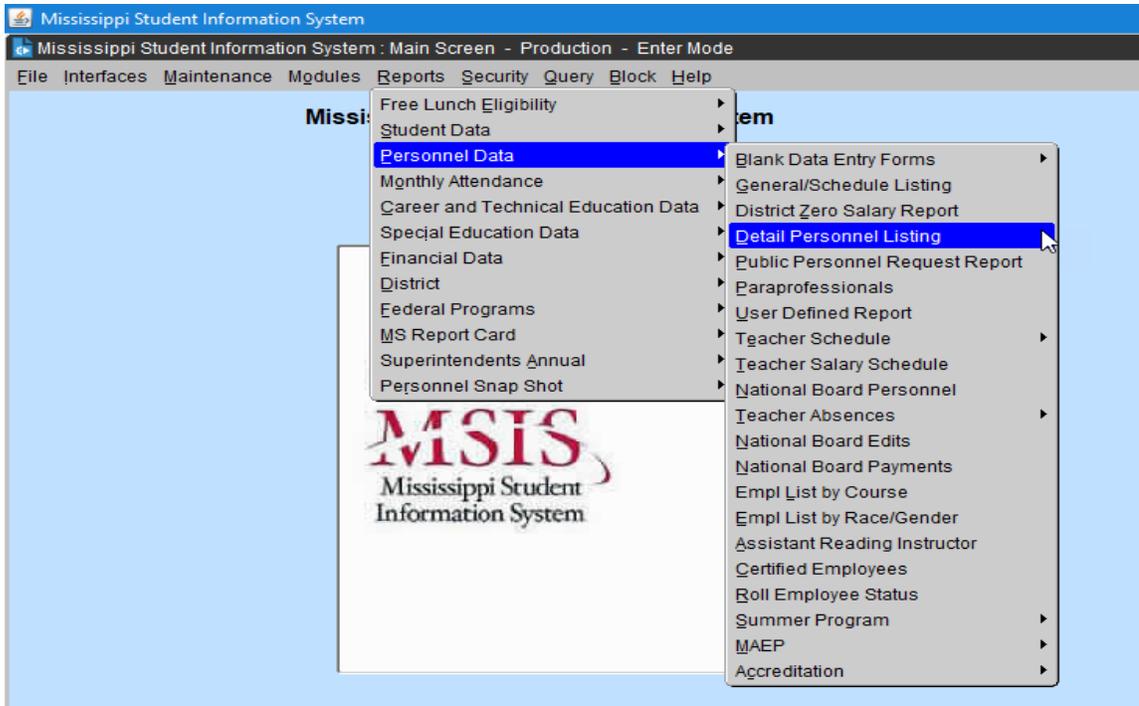

The screenshot shows the 'Report Selection Criteria Screen' for the 'District Zero Salary Report'. The form includes the following fields and options:

User Defined Report

If the district is entering something in the User Define Field on the District Info screen then the district run this report to list the employees with the specified characters in this field.

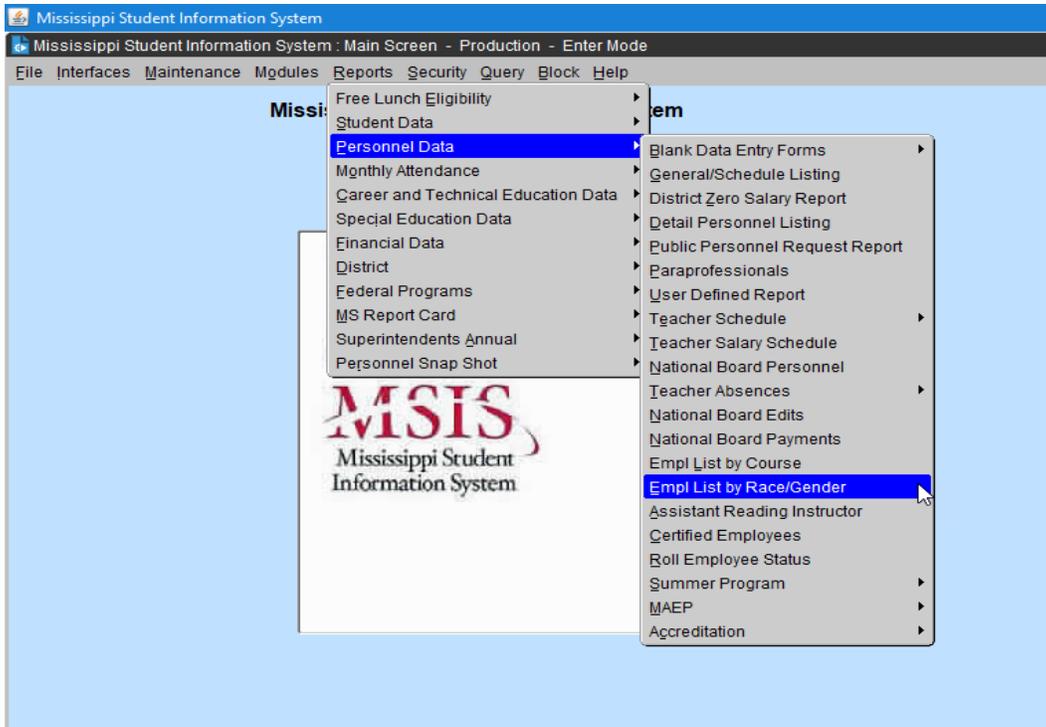

In this example the district has entered CERT in the User Define field on all of their certified employees.

The report lists all employees that meet the criteria entered in the User Defined box.

The report lists the employees entered on the Summer Program screen along with their certification data.

MAEP Reports

There are several MAEP reports in MSIS. These reports should be run once the district has cleared Month 01 and the district has approved their personnel using the District Personnel Approval screen. The MAEP procedure will run each night until the Personnel cutoff in December. The district should run these reports after the MAEP procedure has been run to check that the data submitted for MAEP is correct.

If there are changes on the personnel schedules, the district needs to re-approve their personnel data at the end of the day and the MAEP submission status will change to PENDING for re-run of the MAEP procedure at night. Once the procedure runs again then these reports can be run again to check the data.

END OF REPORT

Accreditation Reports

There are several Accreditation reports in MSIS. In October (after submission of Month 01 data), these reports will be open to the school districts to run error edit checks. The reports allow the district to verify the accuracy of the data, to identify reporting errors and any possible accreditation issues, and to correct any inaccurate data prior to the Personnel Snap Shot, which will be taken in December.

If there are changes on the personnel schedules, the district needs to re-approve their personnel data at the end of the day so the Accreditation procedure will rerun that night and reports can be run the next day.
