VII. Mississippi Department of Education (MDE) Updates (Dr. Cory Murphy)

Dr. Murphy reported temporary changes that were approved by the State Board of Education. There are five rule or policy suspensions enacted due to the COVID-19 pandemic related to licensure, three of which are related to testing, one related to license renewal, and the other related to student teaching.

Dr. Murphy stated that, due to test centers across the nation being closed, the Board voted to suspend testing through December 31, 2021. This will apply to the testing required for gaining entry into a Teacher Preparation education program (for traditional route applicants and non-traditional route applicants) and will include the Praxis Core (reading, writing, and mathematics assessment), the ACT or SAT. This applies also to licensure assessments for all license types (for traditional route applicants and non-traditional route applicants) as well as for testing requirements to obtain a full license through the reciprocity process.

Dr. Murphy reported that, due to not being able to guarantee that all educators have equitable access to Professional Learning opportunities at this time, the Board voted to extend all licenses that will expire on 06/30/2020 for one year. Educators can apply for an extension until

06/30/2021. For Local District Requested Licenses (which include special non-renewable licenses, emergency certificates for educators teaching out of field, expert citizen licenses, and the provisional Career and Technical Education (CTE) license) the request for an extension has to be initiated by the District.

Dr. Murphy stated that Licensure has a policy that prospective educators must complete 12 weeks (60 days) of full-time student teaching, which was interrupted by the closure of schools in the Spring 2020 semester. The Board has voted to allow licensure of those students who were unable to complete their student teaching in a traditional face-to-face setting upon recommendation.
