## **Introduction:**

The Office of Federal Programs' MSIS User Manual assists Coordinators with providing the Mississippi Department of Education with complete, accurate and timely data.

MS Student Information System(MSIS) provides for the electronic collection and storage of comprehensive detailed data about teachers, administrators, students (Pre-K to 12) and school board members. MSIS also allows for the electronic transfer of student records from one school district to another, thus offering a unique student tracking system. The purpose of MSIS is to provide an efficient means in which to:

- Support the Mississippi Department of Education (MDE) performance-based accreditation model
- Support education funding programs
- Provide timely and accurate reporting of education data (schedules, attendance, grades, transportation, discipline, Vocational and Special Education) to meet state and federal requirements
- Allow for student tracking across the state to determine student mobility trends and to assist in the reduction of the drop-out rate within the state

This user manual provides a more detailed step by step approach where program coordinators can use MSIS to update, validate and report data more accurately and timely.

## **Accreditation Standards**

### ***2.1 ASSIGNMENT OF DISTRICT ACCREDITATION STATUS***

In the fall of each year, the CSA determines the annual accreditation status of all public school districts based on verified accreditation data from the previous school year. An annual district accreditation status is assigned based on compliance with Process Standards. Information concerning district compliance with Process Standards is reported to the CSA on an annual basis. See Policy 2.2.

The district superintendent and school principals are responsible for ensuring that all data reported to the MDE are true and accurate as verified by supporting documentation on file in the school district. Reporting false information is a violation of the accreditation requirements set forth by the SBE and may result in the downgrading of the district's accreditation status.

After the CSA acts on accreditation records presented, during the fall, the district superintendent and the chairperson of the local school board are notified of the assigned status. The decision of the CSA is final unless appealed by the school board of the school district to the SBE in accordance with the appeal procedures in Policy 6.0 of this document. If a school board of the school district does not request a hearing before the CSA, they waive their right to any appeal of the CSA's decision.

### ***2.9.4 PENALTY FOR THE WITHDRAWAL OF ACCREDITATION***

Policy 2.9.3 is effective one (1) calendar year following the Withdrawal of Accreditation by the CSA and the SBE.

The withdrawal of a school district's accreditation by the CSA will result in the following:

- A school or schools within a district shall be limited to participation in no more than fifty percent (50%) of the regular season of any interscholastic activity, which shall include division/district/regional games,
- The interscholastic season schedule for a school or schools within a district shall not include the opening day of season or any type of post season participation, as determined by the Office of Accreditation, and
- Cheerleading, drill and dance squads, speech and debate, choral music, and band may participate in district or state contest, but shall not be eligible to receive ratings.

All schedule requests must be submitted in writing to the MDE's, Office of Accreditation, at least thirty (30) days prior to the beginning of the season. The Office of Accreditation shall pre-approve all schedules and participation in interscholastic activities. In addition to the suspension of all post season activities, the school district shall not be allowed to participate in jamborees, special games, parades, tournaments, holiday tournaments, or competitions of any nature.

Failure to comply with section 2.9.3 will result in the suspension of ALL interscholastic activities.

Failure of a district to have its accreditation reinstated by the CSA after a period of two (2) calendar years from the date of the withdrawal of accreditation shall result in the immediate suspension of ALL interscholastic activities until the district's accreditation status is reinstated.

Note: Interscholastic activities include, but are not limited to, football, basketball, baseball, track and field, cross country, tennis, golf, volleyball, softball (fast pitch and slow pitch), soccer, wrestling, swimming, power lifting, bowling, archery, cheerleading, drill, and dance squads, speech and debate, choral music, and band.

## MS Student Information System (MSIS)

The Mississippi Student Information System (MSIS) was created to comply with the Performance Based Accreditation Model established by the Education Reform Act of 1982. This creation was strengthened by further legislation in 1994. This legislation placed an emphasis on the accurate reporting of student attendance and personnel at the school level – it required that there be no more summary data sent to the State Department of Education. MSIS was created to capture the data necessary to comply with this state legislation as well as federal requirements for reporting.

MSIS provides for the electronic collection and storage of comprehensive detailed data about teachers, administrators, students (PreK to 12), and school board members. MSIS also allows for the electronic transfer of student records from one school district to another, thus offering a unique student tracking system. The purpose of this project is to provide an efficient means in which to:

- Support the Mississippi Department of Education (MDE) performance-based accreditation model
- Support education funding programs
- Provide timely and accurate reporting of education data (schedules, attendance, grades, transportation, discipline, Vocational, and Special Education) to meet state and federal requirements
- Allow for student tracking across the state to determine student mobility trends and to assist in the reduction of the drop-out rate within the state.

**Password** – Your MSIS Primary Contact will be able to assist you with this.

**Database** – always enter *msis*

Once connected the window below is displayed. You have now logged into MSIS.

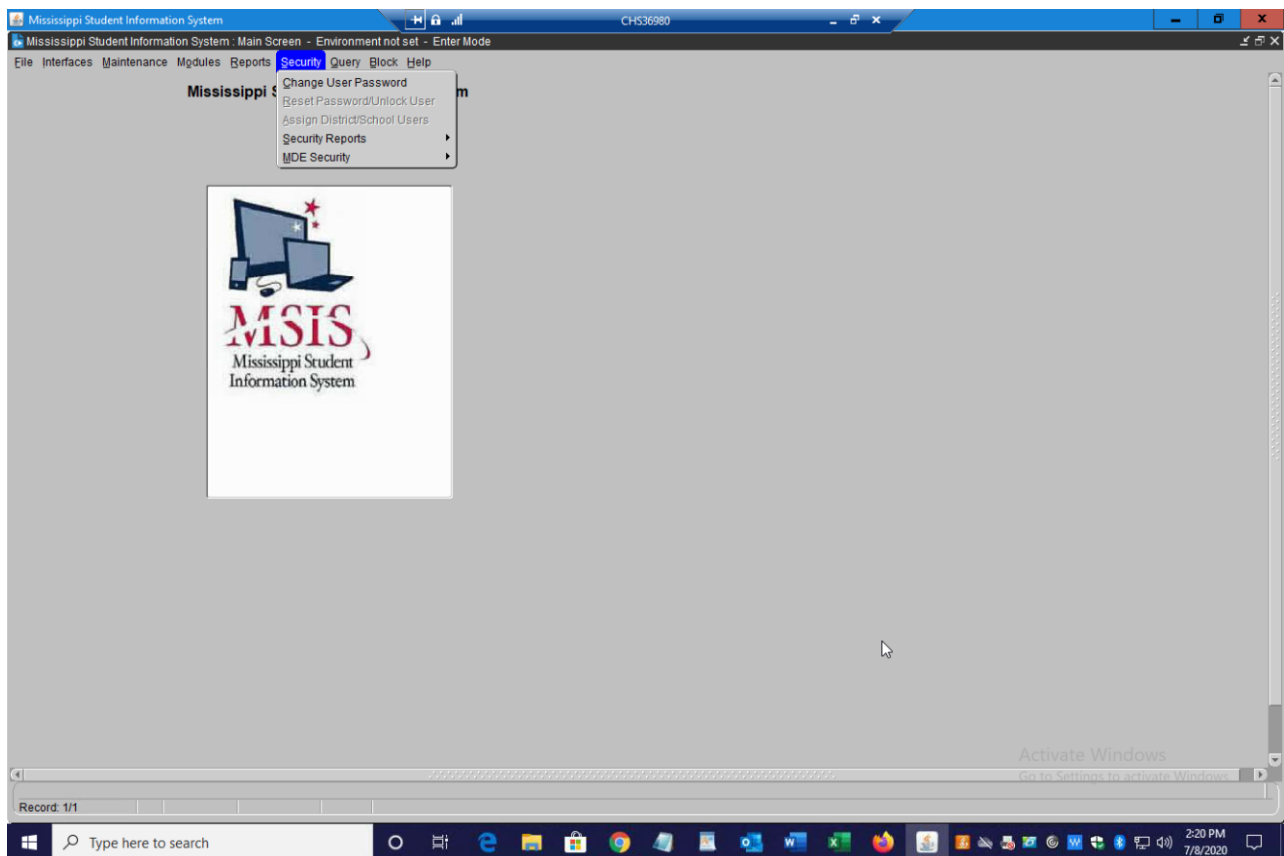

**NOTE:** Do not open multiple MSIS windows at one time – known as *Stacking* - this will lock or slow down the computer or possibly disable functions on other screens.

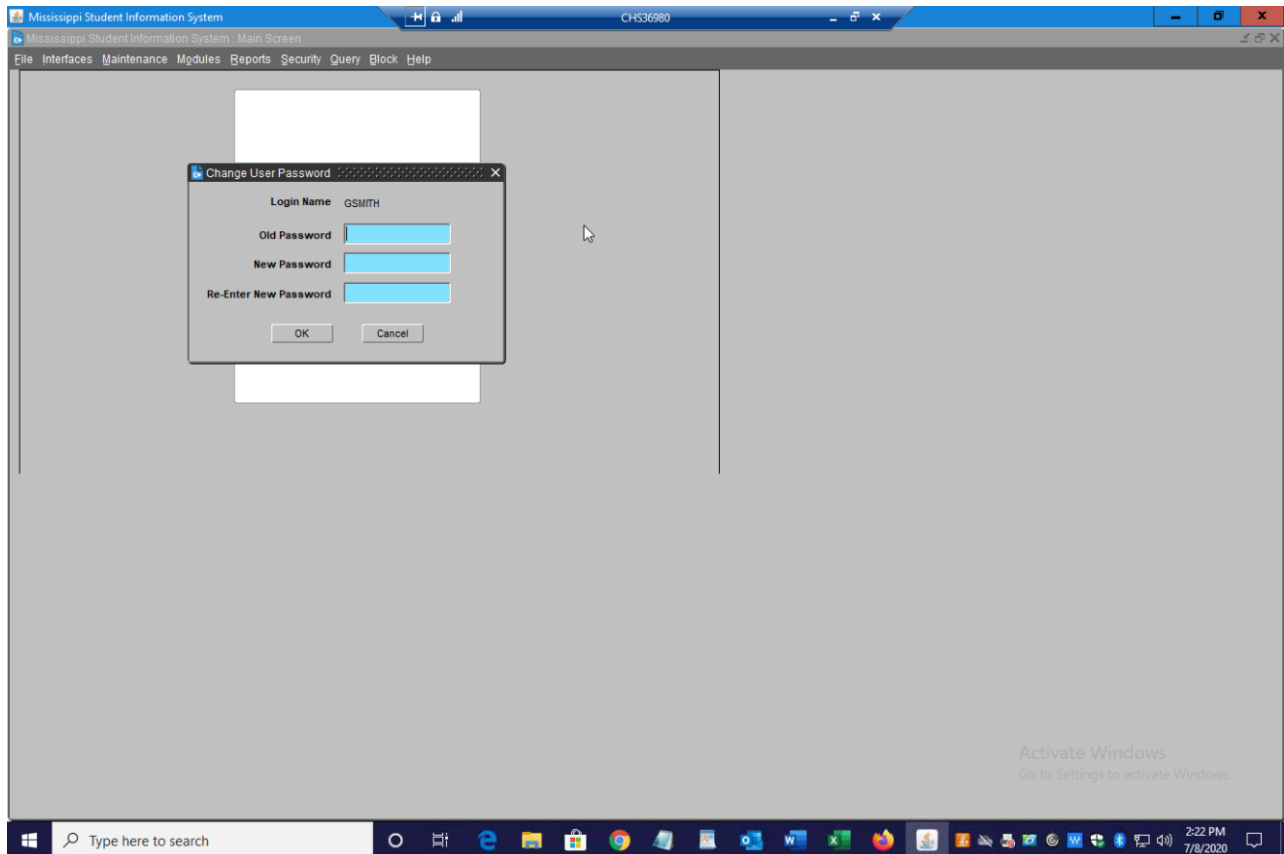

## PASSWORDS

Always make sure that you close the browser when you leave your computer. Never let the computer remember the password for you. Never put the password on a sticky note on your computer. And NEVER share your password with anyone else.

You can change your password in MSIS at any time. Just go to *Security, Change User Password*. You can only change the Password for your Login Name.

On the Change Password screen, enter your old password, then your new password, re-enter the new password and click on OK. You should logout and log back in to be sure the new password works.

The Password must be at least 8 characters and not longer than 30 characters. The Password must contain at least one non-alpha character. The new password must be at least two characters different from the old password. Passwords will expire 60 days from the date of a change. Passwords not changed 30 days after date of expiration will be locked. Please contact your MSIS Primary Contact or MSIS Secondary Contact. They will be able to unlock a locked account. Any account will be locked after three failed login attempts and the user will have to contact the MSIS Primary Contact or MSIS Secondary Contact to unlock the account.

The Password Reset Policy is: User contacts their district's MSIS Primary or MSIS Secondary Contacts. MSIS Primary or MSIS Secondary Contact should contact the OTSS Help Desk at [mdeapps@mdek12.org](mailto:mdeapps@mdek12.org) to reset password by emailing the name and last 4 digits of the user SSN that needs their password reset.

MSIS sessions will be logged out after 30 minutes of inactivity. A session where a "save" hasn't been executed or a screen change hasn't occurred is considered an inactive session. A session where a report is running is NOT considered an inactive session. If you are entering data but haven't saved within the last 30 minutes then your session will be considered inactive. You won't know the session is inactive until you try to save the data, so it is important to save regularly.

## User Access Levels

There are specific levels granted to users either as District or School. Federal Programs Directors have access to District level information and any other access rights granted by the district MSIS Primary or Secondary Contact.

## Federal Programs Personnel

The federal programs director provides accurate information on salaried personnel to the MSIS Primary or designated MSIS personnel employee to input employees paid with title program funds into the SAP and MSIS.

### Federal Personnel

Federal personnel must be marked appropriately in MSIS.

- a. Select only course code(s) in which staff is properly certified.  
If not a licensed staff, please select the proper course code for the duties performed.
- b. Select only the special program code assigned to the course code.  
Special program code is the number assigned to a course code for salaries of employees.
  - i. Title 1 Special Program Code “1”
  - ii. Other Title special program code “9”
- c. Reserved Field Code (SW):  
Title 1 Schoolwide

Use **SW** code in the Reserved field when a School-wide Program is approved for Title I funding and a course is being taught that will not allow a “1” for Title I funding.  
**Never** put both a “1” and “SW” in the same period.

United States Department of Education (USDoE) requires the data reported to answer the following questions:

- Which subject area teachers and paraprofessionals are paid by what federal program?
- Are teachers and paraprofessionals paid by federal funds meeting the Highly Qualified requirement?

The data is being captured in a data warehouse, where the information will be available to the public, and increase transparency in government programs and spending.

**Best practice recommends:** Keep a copy of the personnel report for federal funded staff for unscheduled audits and future monitoring.

For a copy of the MSIS Personnel Manual: visit <https://www.mdek12.org/OTSS/MSIS> and click on MSIS Manuals.

**NOTE:** All district personnel must be entered in MSIS Personnel and approved **on or before September 30.**

Employee entries and edits are allowed **until December 9. MSIS Personnel CLOSED December 10.**

The error(s) will be addressed via letter acknowledging the district error(s). If not corrected by the date assigned on the letter, the district is subject to a possible downgrade in its accreditation standards.

Please contact the Office of Accreditation for more information.

## Special Program Codes

### Enter MSIS, Maintenance, MDE Codes, Special Program Codes

The special program codes are used to determine the salary payment method for a course code assigned to personnel employed at the district and school level.

## Special Program Codes (cont'd)

**Title I Funds (1) are used to pay the salaries of teachers and paraprofessionals** must be used primarily for direct instructional services for students. Teachers and/or assistants (paraprofessionals) should be appropriately designated according to subject areas (reading/writing/math, ESL–Language Instruction Program, etc.) with specific position titles listed. Ensure that Title I staff provide direct, but supplemental, instructional services for students. Staff should only appear for academic areas, not physical education. However, a parent liaison or parent coordinator may be funded.

**Title II Funds (4) are used to pay the salaries of highly qualified teachers** for the purpose of reducing class size. In addition, as reasonable and necessary, Title II, Part A funds may be used to pay for substitute teachers if, and only if, (a) those regular classroom teachers they are replacing were hired with Title II, Part A funds to reduce class size, or (b) the teachers are participating in Title II-funded “programs and activities that are designed to improve the quality of the teacher force, such as...innovative professional development programs...” [Section 2123(a)(5)(A)]. LEA’s also must ensure that the hiring of these substitutes’ supplements, and does not supplant, the use of local and State funds they would otherwise be spending for such substitutes.

**Title III Funds (3) are used:** (1) To pay the salaries of before and after school tutors and academic assistance. (2) To employ bilingual/ESL coaches whose role is to acquire scientific-based research practices, provide professional development, mentor and coach teachers who are working directly with ELs. The funds can be used to provide stipends to teachers to assist them in completing and obtaining bilingual/ESL endorsements. Support for personnel, including paraprofessionals who have been specifically trained, or are being trained, to provide services to immigrant children and youth. Title III funds may NOT be used to pick up a cost that was previously funded by general funds **and may NOT supplant** any other federal, state or local expenses.

**Other Special Funds (9) are used to pay salaries:** Please refer to the specific federal programs (i.e., special education, 21<sup>st</sup> Century, etc.) guidelines to ensure that funding of teachers and paraprofessionals is an allowable expense.

## School Indicators

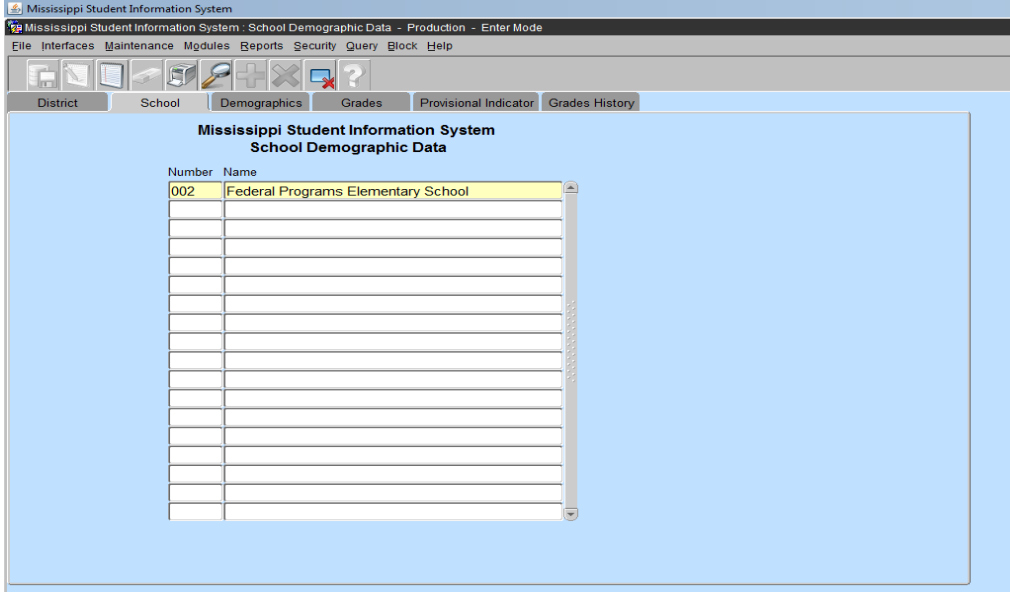

**ALL SCHOOLS** must be properly identified before the submission of Month 1 Monthly Student Data (MSD) file on or before **September 30**.

## Login MSIS, Modules, District/School, School Demographics

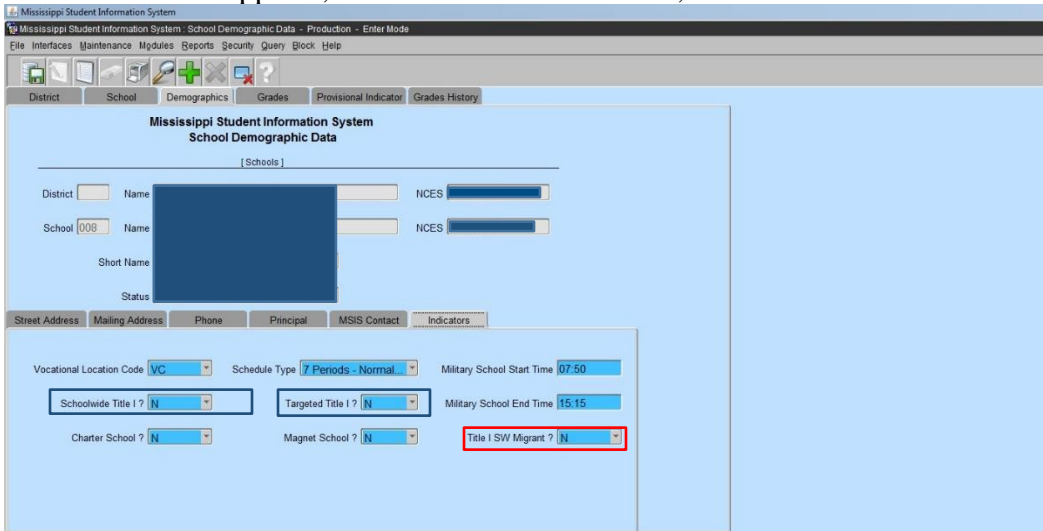

The currently employed school district will appear in a box in the District tab.

**STOP** – if this box is blank or the information of a previous employed district appears. Contact the district MSIS Primary immediately.

Under the **School** tab, select a school in the district. Click the **Demographics** tab.

When the screen appears, at the bottom of the screen, select **Indicators** tab.

School Indicators are **Title I Schoolwide**, **Title I Targeted** and **Title I SW Migrant** (must be “N”). Whichever applies to the school selected it must display a “Y” or “N” in the box.

**Note:** Both boxes **must not** display a “Y”.

Click **SAVE** -  or select File then select Save  
Exit the screen – click **FILE, Exit**

## Student Indicators

**ALL STUDENTS** must be properly identified in the SAP before the submission of Month 1, Monthly Student Data (MSD) file on or before **September 30**.

### Enter MSIS, Student, View Student Data

Student indicators are selected with a “Y” or “N” in the SAP. This is displayed in the View Student Data screen, Details tab.

The screenshot shows the 'Mississippi Student Information System - View Student Record - Production - Enter Mode' window. The 'Indicators' section is highlighted with a blue box and contains the following fields:

District	School	CTE?	Tech Prep?	SP Ed?	504?	CEIS?	IEP?	LEP?	Gifted Type	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="text"/>

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Please refer to the **previous school year roster** of students identified and reported in a particular federal program.

New students that qualify begin with the student indicator in the SAP changed to “Y” **BEFORE** the submission of monthly student data that is submitted at the school level and approved by the district. The students will populate into the **federal program screens** and on reports **AFTER** the submission and approval of monthly student data to MSIS from the district.

If a student **no longer qualifies** for the program, print and provide a copy of the roster with each student identified to the school in which the student is enrolled and request to change the indicator to “N” in the SAP. This must be done **BEFORE** the submission of all monthly student data files at the school level and approved at the district level.

Once the indicator has been set to “N” the student screen will display the selection. When a student has been identified for a particular reason such as withdrawn, misidentified or a dropout, the student will not be counted for the entire month of the data submission. You **cannot remove** a student from the screen or the report.

**Note:** Schoolwide – all students enrolled receive Title I services. Targeted Assistance refers to particular students receiving the required services as identified according to the targeted assistance definition.

**Please refer to the definition of Targeted Assistance schools in the glossary to properly identify the students that qualify for the services.**

**Note:** If a school in the district has been identified as Title I Schoolwide the number of students produced on this report is the total submitted to MSIS from the SAP at the school level. This report is created **after** the district has approved the MSD file submission. This report gives the total number of students enrolled and reported on a monthly basis. **This is extremely important for Month 1.**

## Homeless

### Select Modules, Federal Programs, Homeless

The indicator in SAP is selected as “Y” and the student’s information populates on the homeless screens **after** the district has approved the MSD file sent to MDE.

The student identification starts over in month 1 (by September 30).

Students identified as homeless or neglected/delinquent should be reset in SAP to “N” on the date after the district approves the end of year data (Month 9)

### \*\*\* Note on Homeless Students \*\*\*

Homeless Students: Please make sure that each of your Homeless students are marked as **Title I Homeless** in your student package for each month they are considered to be Homeless in order for them to appear in MSIS with the Homeless Indicator for those months.

**A Homeless Student** is a student: who lacks a fixed, regular, and adequate nighttime residence.

- a. Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
- b. Children and youth who have a primary nighttime *residence* that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human

- beings;
- c. Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
  - d. Migratory children (as defined in section 1309 of the Elementary and Secondary Education Act (ESSA) of 1965, as amended) who qualify as homeless because they are living in circumstances described in this definition.

The permitted values to be selected in MSIS for primary nighttime resident are:

**Shelters** - transitional housing

**Doubled Up** - sharing the housing of other persons due to economic hardship, loss of housing or other reasons (such as domestic violence)

**Unsheltered** - includes cars, parks, campgrounds, temporary trailers including FEMA trailers, or abandoned buildings

**HM** – Hotels/motels

**Unaccompanied homeless youth** - includes a youth not in the physical custody of a parent or guardian.

### **Definition of Homeless**

The following definition, as provided, in the McKinney-Vento Homeless Assistance Act, must be used by the Local Education Agencies (LEAs) when determining the homeless status of a student. The term “homeless” includes children and youth who experience any of the following:

**Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason.** If economic hardship, such as an accident or illness, loss of employment, loss of public benefits, or condition of poverty, forces a family or youth to share the housing of others temporarily, the children and youth are eligible for McKinney-Vento services. Along-term, cooperative living arrangement among families or friends that is fixed, regular and adequate should not be considered a homeless situation, even if the parties are living together to save money.

**Living in a motel, hotel, trailer park, or camping ground due to the lack of alternative adequate accommodations.** Motels, hotels, and camping grounds will almost always be homeless situations, as they are rarely fixed, regular, and adequate residences. Asking questions about the condition and size of the trailer, the number of people living there, the intended length of stay, and whether the family or youth has an adequate alternative will help determine if the student is eligible for McKinney-Vento services.

**Living in an emergency or transitional shelter.** Emergency or transitional shelters of all kinds, including youth shelters, domestic violence shelters, family shelters, transitional living programs, and supportive housing programs are homeless situations.

**Abandoned in hospitals.** A child or youth abandoned in the hospital is eligible for McKinney-Vento services.

**Living in a public or private place not designed for or ordinarily used as a regular sleeping**

**accommodation for human beings.** An example of a place that meets these criteria is a public restroom.

**Living in a car, park, public space, abandoned building, substandard housing, bus or train station, or similar setting.** In evaluation whether housing is “substandard,” consider that substandard means “deviating from or falling short of a standard or norm” or “of a quality lower than that prescribed by law.” Determining if housing is substandard requires comparing the housing with community norms and the law.

**Classified as migratory children who qualify as homeless for the purpose of this subtitle because the children are living in circumstances described above.** While migrant students are not categorically eligible for McKinney-Vento services, migrant students living in a primary nighttime residence that is not fixed, regular, and adequate are eligible.

The screen will display students that have been identified in the SAP with a “Y” as LE and were submitted in the monthly student data for the district. The students will appear on the screen **AFTER** the district data was approved for the reporting month.

Each area next to the student’s name must be completed by the Federal Program Director and properly updated as needed. Please view this screen for any new students and make the selections. **MONTHLY**. Click **SAVE** - 

**Note:** You **cannot remove** a student from this screen. If student has been misidentified immediately contact the school in which the student is enrolled and change the LE indicator to “N”. Please leave all areas next to the student’s name blank on this screen. This will indicate a misidentification and the student will not be reported as LEP/ELL.

### First Month of Service

The reporting month of the school year in which the data was submitted to MSIS.

### Language

The native language at birth or most commonly spoken in the home. **If a language spoken is not in the drop-down list, please select the standard language of the home country.** MDE uses the ISO 639.2 List from the Library of Congress. The ISO 639-2 language codes can be found on the [Codes for the Representation of Name of Languages](#) web site.

What if a student has a language (native) that is not on the list?

In the event that a student has a native language that is not included in the list, try to determine the language family for that language. Additional information on the language families is contained on the [Enthnologue website](#).

An example of this would be for students who speak the Maay language. This language is not included in the language list. According to the Ethnologue Web site Maay is a Cushitic language. The ISO 639-2 has a value for Cushitic (Other). In this case you would report your Maay speaking students under “Cushitic (Other).” In the explanation field include a comment that the students in this category speak the Maay language.

**Type of Instruction:**

A language instruction educational program (LIEP) is a course in which an English learner is placed in order to develop and attain English proficiency while meeting challenging State academic standards. An LIEP may include instruction in English and a child’s native language, and English proficient children may participate in the course if the course is designed to enable all participating children to become proficient in English and a second language (ESEA section 3201(7)).

List of Instructional languages to choose from:

- Dual Language
- Two-way
- Transitional bilingual program
- Developmental bilingual – (*MS doesn’t have*)
- Heritage language – (*MS is an English only state*)
- Sheltered English instruction
- Structured English immersion
- Specially designed academic instruction delivered in English (SDAI)
- Content-based ESL
- Pull-out ESL

**Service Status**

**Monitored** – An ELL student who was receiving services but has officially exited the program based upon the exit criteria in the ELL Guidelines.

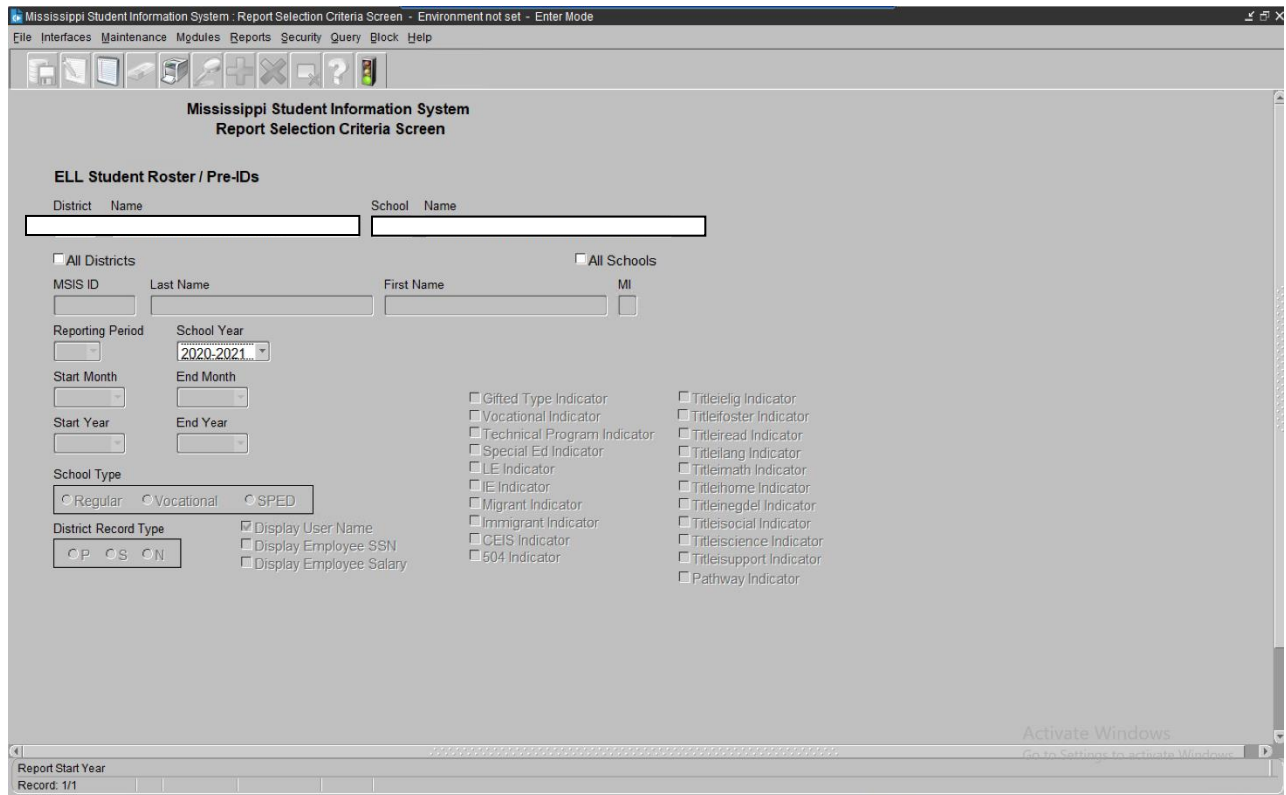

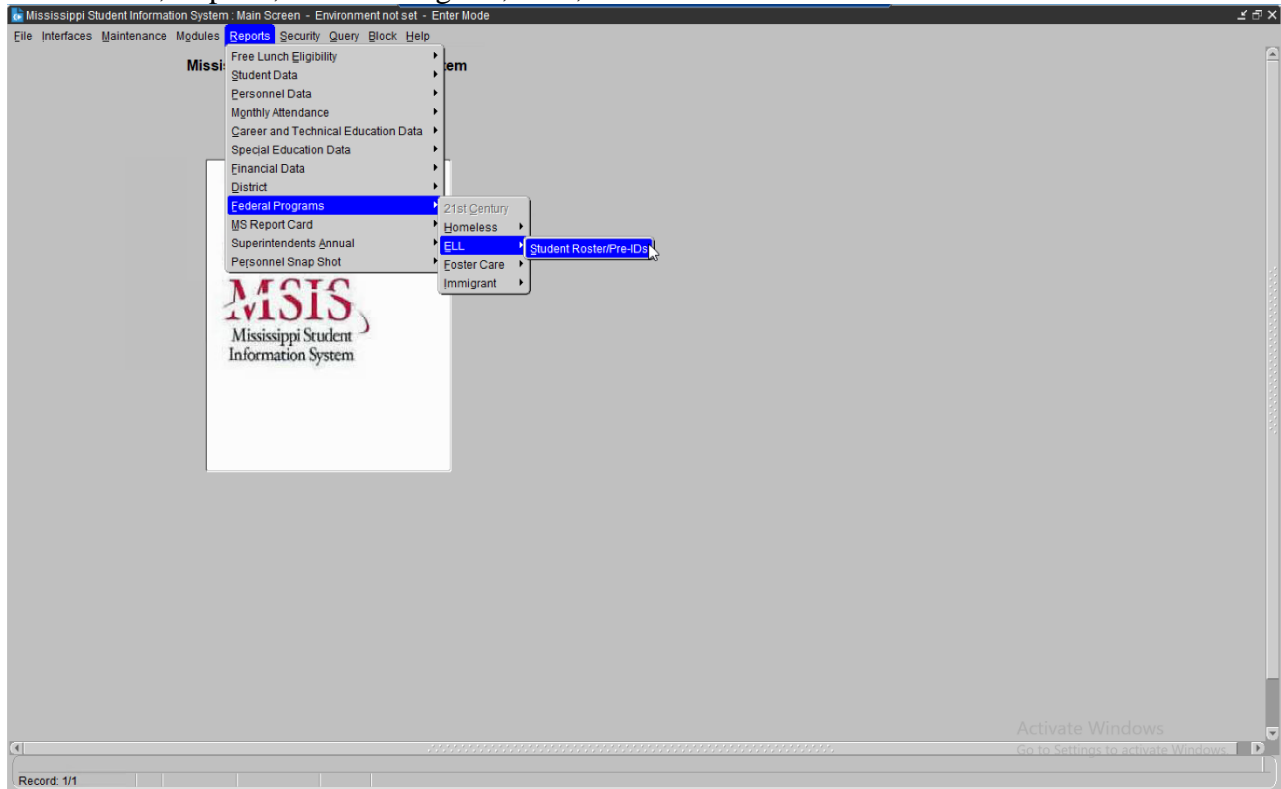

**Served** - A student that has indicated that English is a Second Language on the Home Language Survey.

**Years** – Years served in the district as LEP identified only.

If student has been identified as Monitored - **Select 1, 2, 3, or 4 years, ONLY.**

**\*\*\* Note on ELL Students \*\*\***

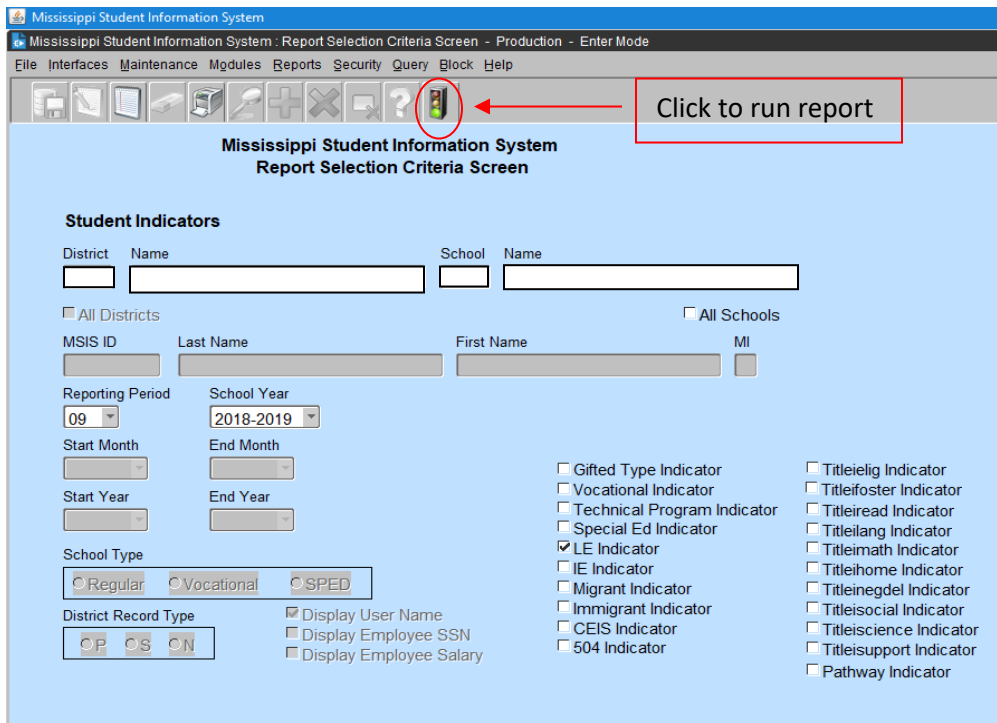

ELL (LEP) Students: There was a lot of confusion concerning LEP student indicators not showing as marked correctly in MSIS. It was determined that for Districts that are SAMS users, you must mark the **LE** (Limited English) indicator and the **Title I** indicator for those students in your package. This will allow your students to be correctly identified as LEP students when your file is submitted to MSIS.

For those Districts that are not SAMS users, please contact your Vendor on how to correctly identify these students in your student package.

## HOME LANGUAGE SURVEY

The Home Language Survey must be completed for all new entering students **at the time of registration and remain in the student's cumulative folder until graduation.**

If any response on the Home Language Survey indicates the use of a language other than English by the student or an individual in the home, then further assessment must be conducted to determine the student's English Language proficiency.

A Migrant indicator is marked in the SAP as “Y”. The Mississippi Migrant Education Service Center (MMESC) will notify the district of children who qualify as migrant (see below).

The screenshot shows the 'Mississippi Student Information System - View Student Record' interface. The form is divided into several sections:

- Demographics:** Fields for District, School, MSIS ID, Last Name, First Name, MI, SSN, Birthdate, Grade Level, Gender, Race, Grad Year, Graduation Type, Immunization Status, Birth State, and Parent/Guardian.
- Indicators:** A grid of checkboxes for various indicators. The 'Migrant?' checkbox is checked with a 'Y'. Other indicators include CTE?, Tech Prep?, Sp Ed?, 504?, CEIS?, IEP?, LEP?, Gifted Type, Title Elig?, Title Read?, Title Math?, Title Lang?, Title Science?, Title Social?, Title Support?, Title Homeless?, Title Negl/Delq?, and Immigrant?.
- Aliases:** A table with columns for Last Name, First Name, and MI.

A red arrow points to the 'Migrant?' checkbox, which is checked with a 'Y'. A text box below the arrow contains the text 'Student Indicator "Y"'. The 'Migrant?' checkbox is located in the 'Indicators' section, under the 'Title' column.

## Title I, Part C

**A Migrant child** is 3-21 years of age and has not graduated from high school or obtained a GED. The child or the child’s parent(s), guardian(s), or spouse is a migratory agricultural worker or fisher and has moved within the past thirty-six months from one school district to another due to economic necessity. The move has enabled the child, or the child’s parent, guardian, or spouse, to either engage in temporary or seasonal agricultural or fishery employment, or actively seek such work while having a history of moves with qualifying employment.

If a student is enrolling in or has enrolled in the district and the district representative identifies the student as a potential migratory child, contact the Coordinator of Identification & Recruitment at the Mississippi Migrant Education Service Center (MMESC) immediately (ph. 662.325.1815).

Do not mark the indicator in the SAP as “Y” until receiving confirmation from MMESC. Only MMESC can make the determination of whether a student is a qualifying migratory child. MMESC will convey a list of qualifying migratory children to the district (see below).

END OF REPORT

MSIS requires the indicator to be marked “ Y ” after the student has been determined to be a migrant student by MMESC.

Migrant student data is captured, stored and reported in the MIS2000 database on behalf of the MDE by MMESC, at Mississippi State University. This system collects and stores Migratory data for the state of Mississippi and over 25 other states. Data collected in MIS2000 is shared with MDE and the U.S. Department of Education, Office of Migrant Education. MIS2000 is owned and operated by Management Services for Education Data (MS/EdD), in Little Rock, AR.

**Note: School Districts do not make the determination of whether a student is marked as a migrant student in MSIS. This determination can only be made by MMESC.** A list of qualifying migrant students will be sent to districts from MMESC. It is very important to accurately report the information in MSIS as indicated in this migrant student list. Accurate data entry enables MDE’s accurate submission of a required biannual report on migratory students educated in Mississippi to the U.S. Department of Education, Office of Migrant Education.

### Title I, Part D – Subpart I (State Agencies) and Subpart II (District)

Title I, Part D consists of 2 discretionary subparts. Subpart 1 is allocated to state agencies (Mississippi Department of Corrections and Mississippi Department of Human Services/Division of Youth Services). Subpart 2 is allocated to school districts with institutions, in their local attendance areas, for children meet the federal definition of delinquent (juvenile detention centers).

A delinquent child as defined in section 1432; 4(B) of ESEA is a child or youth ages 15-21 who have been placed in a facility because they have been adjudicated to be delinquent or in need of supervision by court orders.

The student indicator is selected in the student package with a “Y” at the homeschool.

**Note:** Once a student has entered a Juvenile Detention Center (JDC) the indicator must be selected to “Y” and an incident identifying the student action is created and sent to MSIS within 72 hours. Then it is followed by the disposition of JDC with the duration days of stay at the facility. This information is sent from the homeschool as a Daily Student Data (DSD) file. The indicator must remain checked until the student returns to the homeschool. If a student has served only a weekend in the JDC, please check the indicator immediately and leave selected until the monthly student data file has been accepted at MDE, then change the student indicator to “N” in the SAP.

A student must **remain enrolled at the homeschool and marked present everyday** while in the JDC until they return to the homeschool. The student **must be released in MSIS** to the JDC or state approved coordinating facility that request a release of the MSIS ID.

Students **that have been sentenced to an adult correction facility or prison** must be removed from the homeschool enrollment with the appropriate dropout code with supporting court documentation.

**Note:** Students can have more than one indicator selected in the SAP. Please run all federal program reports on a monthly basis to verify students that are enrolled or receiving services in a particular Title program. This report can be used to correct errors in terms of identifying students receiving or eligible for Title services and/or support.

**Special Note:** If an enrolled student receiving services from a Title program withdraws, transfers or drops out from the school or district, the student will remain present on the report. You cannot remove the student from the report. This is due to the enrolled and served request from the USDoE in regard to students that must be reported annually in CSPR (USDoE).

Please print and maintain a copy of this report and all federal reports listed previously in this manual until the next monthly data file has been submitted to MDE.

## Glossary

**Disposition:** the disciplinary action decided upon by the school or district administration to be completed by a student before returning to the classroom.

**Daily Student Data Transaction File (DSD)** Submit on a daily basis if you suspend or expel a student for a violent act OR if the status of a Special Education student changes. This file must be submitted within the month the incident occurred. If you cannot submit during the month of the incident (the incident happened on the last day of the month, but the district didn't take action until the 3<sup>rd</sup> of the next month), do not submit a DSD file. The student information will be updated with the MSD file.

Some incidents should be sent within 72 hours of the incident. These are Fighting, Homicide, Kidnapping, Mayhem, Poisoning, Rape, Robbery, Staff Assault, Stalking, Sexual Battery, and Weapon Possession.

You can get a complete list of incidents reportable in MSIS from the MSIS Information page at [http://www.mde.k12.ms.us/management-information-systems/ms-student-information-system-\(msis\)/for-students](http://www.mde.k12.ms.us/management-information-systems/ms-student-information-system-(msis)/for-students). This document lists the incidents and dispositions to be reported in MSIS. Definitions of each incident code are included.

**Incident:** the action/crime conducted by a student, on and off campus, during the school year that requires a disciplinary action to be decided upon by school or district administration.

**Monthly Student Data Transaction File (MSD)** Submit one successful MSD per school per reporting period. This file contains students' schedules, demographics, emergency information, incidents, attendance, enrollments, withdrawals, class schedules, program indicators and grades with credits received. This information has been entered at the home school into the school administrative package.

**Monthly Days Taught Data Transaction File (MDT)** Submit one MDT per school per reporting period. This file should be submitted first for your monthly reports. Once you have a Success, you do not have to submit this file again until the next reporting period. This tells MSIS how many days were taught at this school for each grade for this reporting period.

**Reporting Period** – the student school attendance month **NOT** a calendar month. Please refer to the district timeline listed above.

**Student Administrative Package -SAP** –is a district-level software package that allow school districts to manage student, personnel and other pertinent school data on a daily basis. The software must have the capabilities of exporting data into MSIS. School districts select and purchase the school software company. *MDE employees are strictly prohibited from the decision and purchasing of the software at the public and non-public district level. MDE employees are forbidden access to the software packages purchased by the districts.*

**Start Month/End Month** – Standard Calendar Months

**Targeted Assistance School** - primarily addressed in section 1115 of Title I, Part A, is one that receives Part A funds yet is ineligible or has chosen not to operate a Title I schoolwide program. The term "targeted assistance" signifies that the services are provided to a select group of children--those identified as failing, or most at risk of failing, to meet the State's challenging content and student performance standards--rather than for overall school improvement, as in schoolwide programs. Like schoolwide program schools, the goal of a targeted assistance school is to improve teaching and learning to enable Part A participants to meet the challenging State performance standards that all children are expected to master. To accomplish this goal, a targeted assistance program must be based on effective means for improving achievement of participating children; use effective instructional strategies that give primary consideration to extended-time strategies, provide accelerated, high-quality curricula, and minimize removing children from the regular classroom during regular school hours; coordinate with and support the regular education program; provide instruction by highly-qualified and trained professional staff; and implement strategies to increase parental involvement

## Report Glossary

**Holding Area Report** – A report that is created in MSIS before the approval of the district MSD file and it allows verification of the data. go to REPORTS>STUDENT ROSTER>HOLDING AREA and run the report and verify that all students have been sent. Other Holding Area reports should also be run at this time.

These reports are: Holding Area Student Entries, Holding Area Student Withdrawals, Holding Area Incidents/Dispositions, Holding Area Student Indicators, Holding Area Absences, Holding Area Carnegie Unit with No Credit (important for Month 09), and Holding Area Vocational Student Indicators. A hard copy or PDF file of each month's Holding Area reports should be saved for auditing purposes. These reports are accessed by going to REPORTS>STUDENT DATA>HOLDING AREA and then selecting the desired report. If the reports look okay, then go to the APPROVE IMPORTED STUDENT DATA screen and click in the Approved field for that school. The date will default to the current date. You WILL NOT be able to approve a school if the PRE-APPROVED MONTHLY ATTENDANCE REPORT has not been run. Click on the green diskette in the upper left corner to save the approval. Repeat this until all schools have been approved.

**Holding Area Student Indicators** - the report that is a list of students with a particular indicator selected in the SAP and/or last submitted in the MSD file that is in the Holding Area. The user can choose an indicator and run a listing of students with that indicator marked in the last submitted MSD file that is in the Holding Area. For example, the user could run a listing of all students marked as Gifted or a listing of Voc Ed students, or a listing of Special Ed students.

**Holding Area Vocational Student Indicators** - This report list student name, MSIS ID, Grade Level, Vocational Indicator, LEP Indicator, Capstone Indicator, Disabled Indicator, Disadvantaged Indicator, Nontraditional Indicator, Single Parent Indicator, and Displaced Homemaker Indicator for students in the selected school who have a Vocational Indicator of Y in the Holding Area. This allows you to verify the data before approving the school for the reporting month.

**Holding Area Student Entries** - This report lists the student's name, MSIS ID, and grade level alphabetically by school based on data in the Holding Area. This allows you to see the students that were sent in with an entry in the MSD file. The District Student Administrators and School Student Administrators have rights to run this report.

**Holding Area Student Withdrawals** – This report lists the student's name, MSIS ID, and grade level alphabetically by school based on data in the Holding Area. This allows you to see the students that were sent in with a withdrawal in the MSD file. The District Student Administrators and School Student Administrators have rights to run this report.

**Holding Area Incidents/Dispositions** - This report lists the incident description and disposition code with totals of each that are in the Holding Area. This allows you to see the incidents/dispositions that were sent in the MSD file. The District Student Administrators and School Student Administrators have rights to run this report.
