HOMELESS

A Homeless Student is a student who lacks a fixed, regular, and adequate nighttime residence.

- a. Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
- b. Children and youth who have a primary nighttime *residence* that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- c. Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
- d. Migratory children (as defined in section 1309 of the Elementary and Secondary Education Act (ESSA) of 1965, as amended) who qualify as homeless because they are living in circumstances described in this definition.

**Additional
data is
required
via File
Upload**

Homeless indicator should be marked
“Yes” in the SIS and **remain marked
“Yes” for the remainder of the SY.**

HOMELESS

The following definitions, as provided, in the McKinney-Vento Homeless Assistance Act, must be used by the Local Education Agencies (LEAs) when determining the homeless status of a student. The term “homeless” includes children and youth who experience any of the following:

- **Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason.** If economic hardship, such as an accident or illness, loss of employment, loss of public benefits, or condition of poverty, forces a family or youth to share the housing of others temporarily, the children and youth are eligible for McKinney-Vento services. A long-term, cooperative living arrangement among families or friends that is fixed, regular and adequate should not be considered a homeless situation, even if the parties are living together to save money.

HOMELESS

- **Living in a motel, hotel, trailer park, or camping ground due to the lack of alternative adequate accommodations.** Motels, hotels, and camping grounds will almost always be homeless situations, as they are rarely fixed, regular, and adequate residences. Asking questions about the condition and size of the trailer, the number of people living there, the intended length of stay, and whether the family or youth has an adequate alternative will help determine if the student is eligible for McKinney-Vento services.
- **Living in an emergency or transitional shelter.** Emergency or transitional shelters of all kinds, including youth shelters, domestic violence shelters, family shelters, transitional living programs, and supportive housing programs are homeless situations.
- **Abandoned in hospitals.** A child or youth abandoned in the hospital is eligible for McKinney-Vento services.

HOMELESS

- **Living in a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings.** An example of a place that meets these criteria is a public restroom.
- **Living in a car, park, public space, abandoned building, substandard housing, bus or train station, or similar setting.** In an evaluation of whether housing is “substandard,” consider that substandard means “deviating from or falling short of a standard or norm” or “of a quality lower than that prescribed by law.” Determining if housing is substandard requires comparing the housing with community norms and the law.
- **Classified as migratory children who qualify as homeless for the purpose of this subtitle because the children are living in circumstances described above.** While migrant students are not categorically eligible for McKinney-Vento services, migrant students living in a primary nighttime residence that is not fixed, regular, and adequate are eligible.

IMMIGRANT

Immigrant, Title III, Part A

Section 3301(6) defines Immigrant Children and Youth as individuals who-

(c) have not been attending one or more schools in any one or more states in America or US Territories for more than three full academic years.

Are children (students) born to U.S. citizens abroad (e.g., children born on a military base overseas) considered immigrants?

YES...if they meet the above criteria in the definition of immigrant.

Definition: Children born outside the United States or a U.S. territory to parents or couples that are US citizens, born or naturalized, are to be identified as immigrants.

**Additional
data is
required
via File
Upload**

Once a student has completed three full academic school years* (MS public, private, homeschool, or any type of out-of-state school), **the Immigrant student indicator should be set to “No” in the SIS.**

Academic school year is MS school attendance calendar = July/Aug thru May/June. Other states' school attendance calendars may vary. Only include summer school if the student is a Migrant and the classes are part of the Migrant Education Program. **Academic school years do not have to be consecutive.*

Once a student is marked “yes” for the Immigrant indicator, they retain that status for 3 full academic years.

Example: A student is marked “yes” for the Immigrant indicator during April of the 2024-2025 school year. The student will keep this status until they complete three full academic years. If the student is enrolled and attends school for the entire 2025-2026 (Year 1), 2026-2027 (Year 2), and 2027-2028 (Year 3) school years, they will maintain the Immigrant status throughout these three full academic years. For the 2028-2029 school year, the student’s Immigrant indicator should be set to “no”.

A student who has both English Learner and Immigrant indicators:

- After a student has been enrolled for three full academic years, their Immigrant indicator can be set to “no.” However, their English Learner indicator will stay set to “yes” until the English Learner exit criteria are met.
- After the student meets the English Learner exit criteria but has not been enrolled for three full academic years, the student’s English Learner indicator can be set to “no,” but the Immigrant indicator will remain set to “yes” until three full academic years have been completed.

MIGRANT

Migrant, Title I, Part C

A Migrant child is 3-21 years of age and has not graduated from high school or obtained a GED. The child or the child's parent(s), guardian(s), or spouse is a migratory agricultural worker or fisher and has moved within the past thirty-six months from one school district to another due to economic necessity. The move has enabled the child, or the child's parent, guardian, or spouse, to either engage in temporary or seasonal agricultural or fishery employment or actively seek such work while having a history of moves with qualifying employment.

If a student is enrolling in or has enrolled in the district and the district representative identifies the student as a potential migratory child, contact the Coordinator of Identification & Recruitment at the Mississippi Migrant Education Service Center (MMESC) immediately (662.325.1815).

MIGRANT

Migrant student data is captured, stored and reported in the MIS2000 database on behalf of the MDE by MMESC, at Mississippi State University. This system collects and stores Migratory data for the state of Mississippi and over 25 other states. Data collected in MIS2000 is shared with MDE and the U.S. Department of Education, Office of Migrant Education. MIS2000 is owned and operated by Management Services for Education Data (MS/EdD), in Little Rock, AR.

LEAs do not make the determination of whether a student is marked as a migrant student in MSIS. This determination can only be made by MMESC. A list of qualifying migrant students will be sent to districts from MMESC. It is very important to accurately report the information in MSIS as indicated in this migrant student list. Accurate data entry enables MDE's accurate submission of a required biannual report on migratory students educated in Mississippi to the U.S. Department of Education, Office of Migrant Education

The Migrant student indicator should only be marked as “Yes” in the SIS if the district receives confirmation from MMESC and **remain “Yes” for the rest of the SY.**

DELINQUENT

Title I, Part D – Subpart I (State Agencies) and Subpart II (District)

Title I, Part D consists of 2 discretionary subparts. Subpart 1 is allocated to state agencies (Mississippi Department of Corrections and Mississippi Department of Human Services/Division of Youth Services). Subpart 2 is allocated to school districts with institutions, in their local attendance areas, for children who meet the federal definition of delinquent (juvenile detention centers).

A delinquent child as defined in section 1432; 4(B) of ESEA is a child or youth ages 5-17 who reside in a public or private residential facility, other than a foster home, that is operated for the care of children and youth who have been adjudicated to be delinquent or in need of supervision by court orders.

The Delinquent student indicator is marked “Yes” in the SIS for the home school **for as long as the student remains in that placement.**

DELINQUENT

Once a student has entered a Juvenile Detention Center (JDC) the Delinquent indicator must be marked “Yes.” An incident identifying the student action is created in the SIS within 72 hours. The incident information should include a disciplinary action of “75000 – Placed in juvenile detention center” with the duration of days of stay at the facility.

The delinquent indicator must remain “Yes” until the student returns to the home school.

If a student has served a weekend in the JDC, immediately mark the delinquent indicator as “Yes” and leave it as “Yes” for 24 hrs so the indicator is reported to MSIS. The next day, change the delinquent student indicator to “No” in the SIS.

A student must remain enrolled at the home school and marked present everyday while in the JDC until they return to the home school.

Students who have been sentenced to an **adult correctional facility or prison** must be removed from the home school enrollment with the appropriate dropout code, with supporting court documentation.

NEGLECTED

Neglected children are children or youths who reside in public or private residential facilities, other than foster homes, that are operated for the care of children who have been committed to the institution or voluntarily placed in the institution under applicable state laws due to abandonment, neglect or death of their parents or guardian.

The Neglected student indicator is marked “Yes” in the SIS for the home school **for as long as the student remains in that placement.**

Language

Use exact value found in the “Language Code for English Learner file” column in the [Language Lookup](#) list

The native language at birth or most commonly spoken in the home. **Select the language from the MDE [Language Lookup](#) list.** (MDE uses the ISO 639.2 List from the Library of Congress.)

What if a student has a language (native) that is not on the list? Try to determine its language family. The [Ethnologue website](#) contains additional information on language families.

Example: A student speaks the Maay language. This language is not included in the Language Lookup list. According to the Ethnologue website, Maay is a Cushitic language. The ISO 639-2 has a value for Cushitic (Other). In this case, you would report your Maay- speaking student under “cus”.

Monthly Data Check

Review/Update Federal Programs Reports

- EL Roster Report
- Immigrant Report
- Homeless Report

Review all Federal Programs reports monthly to verify students who are enrolled or receiving services in a particular Title program. These reports can be used to correct errors in identifying students who receive or are eligible for Title services and/or support.

Please **print, date, and sign** a copy of this report (EL Roster, Immigrant, Homeless) each month as a data quality check for the Office of Federal Programs.

Maintain copies of each report until **Month 1** of the next **school year**.

Note: If an enrolled student receiving services from a Title program withdraws, transfers, or drops out of the school or district, the student will remain present on the report. You cannot remove the student from the report. This is due to the enrolled and served request from the USDoE regarding students that must be reported annually in CSPR (USDoE).
