

## APPLICATIONS DEVELOPER III OFFICE OF TECHNOLOGY AND STRATEGIC SERVICES NON-STATE; TIME LIMITED

**Salary Range: \$60,907.00 - \$91,451.00.**

Salary will be negotiable and commensurate with experience.

### RESPONSIBILITIES:

The Mississippi Department of Education is seeking an Applications Developer III with an emphasis in Power BI reporting for the Office of Technology and Strategic Services (OTSS). As an Applications Developer III, the successful candidate will work closely with data analysts to create and maintain Power BI dashboards and reports. The incumbent will ensure there is proper documentation of all requirements and business rules; in addition, will also provide production support for embedded reports as well as ad-hoc reporting.

Responsibilities will include:

- Developing new or enhanced reports to support user needs.
- Gathering, documenting, and analyzing user requirements and written business rules and processes.
- Creating or modifying data models and queries to source data.
- Ensure issues are resolved or escalated to confirm deliverables and timelines are met.
- Developing complex analysis and reporting solutions working both individually and as part of a team.

### SPECIAL QUALIFICATIONS:

- Proficiency in Power BI Desktop, including data modeling, DAX expressions, and creating data visualizations.
- Strong SQL querying skills with experience in relational databases and data warehousing concepts.
- Experience with ETL processes is a plus.
- Knowledge of Common Education Data Standards (CEDS) or education data is a plus.
- Microsoft Power BI certification is a plus.

### EXPERIENCE/EDUCATION REQUIREMENTS:

Typically requires a Bachelor's Degree and 5-8+ years of IT experience with emphasis in applications development and support.
