- F. Revise the methodology to reallocate relinquished Homeless Education grant dollars in accordance with the McKinney-Vento Homeless Assistance Act

Purpose: For the purpose of reallocation, any Homeless Education funds relinquished by a grantee or not expended within the established funding period shall be redistributed the following year based on the approved methodology. Reallocated funds will be used by to Local Educational Agencies (LEAs) to ensure that homeless children, including preschoolers and youth, receive services to eliminate barriers to their education by providing supplemental instruction, transportation, free school meals, enriched educational services, social services, and medical services.

Eligibility: All sub-grantees receiving grant funds during the reallocation period are eligible.

Funding Source: Title IX, Part A of the Every Student Succeeds Act

Basis for Awarding the Reallocation: The reallocation will be based on the number of grants to be awarded.

Funds will be reallocated based on the following methodology:

I. Base Reallocation:

If funds are relinquished by a grantee or not expended within the previously established funding period, each grant recipient will receive a base reallocation based upon the number of grants that will be awarded. Fifty percent (50%) of the LEA reservation will be evenly distributed among all grant recipients. The base allocation will be calculated as follows:

$$\frac{50\% \text{ of the total LEA Reallocation Amount to be Awarded}}{\text{Total \# grant recipients}} = \text{Base Reallocation}$$

II. Additional Reallocation:

The funds available after the base reallocations are awarded will be reallocated to all grant recipients on a per pupil basis.

The per pupil amount will be calculated as follows:

Total funds available after LEA base reallocations
Total # homeless students enrolled in the districts that are grant recipients

= Per pupil amount

The additional reallocation will be calculated as follows:

Per pupil amount x # homeless students enrolled = Amount of additional reallocation
