- J. Approval to begin the Administrative Procedures Act process: To revise Title 7 of the Miss. Admin. Code: Part 142: Guidelines and Clarification of Requirements for Issuance of Career and Technical Education (Occupational Educator) Licenses: To include a new pathway to licensure in the area of Driver Education (Licensure Endorsement Code 114)

Background Information: Senate Bill 2695 of the 2024 Regular Mississippi Legislative Session, later codified into law as Miss. Code Ann. §37-25-5 requires any school board of any school district maintaining a secondary school, which includes grades nine (9) through twelve (12), to offer Driver Education, beginning with the 2026-2027 school year.

As of July 1, 2025, only 52% of school districts currently offer driver education. Since the passage of §37-25-5, the Mississippi Department of Education has received an increase in the number of inquiries from school districts and educators regarding additional pathways to licensure in the area of Driver Education. Currently, only three Mississippi-based educator preparation providers offer a supplemental endorsement in this area.

On July 11, 2025, at its regular meeting, the Licensure Commission granted approval of a request received from the Offices of Safe and Orderly Schools and Educator Licensure to establish a Driver Education licensure pathway that will combine occupational expertise with successful technology literacy education and a two (2) year college degree with focused coursework through a Vocational Instructor Preparation to support the demand and recruitment of prospective teachers in Driver Education to ensure compliance with the implementation timeline and other requirements as outlined in Miss. Code Ann. §37-25-5.
