(Include teaching personnel, teaching materials, vehicle expense, and maintenance cost)

Number of students enrolled in driver education during the current school year _____

Average cost per student in driver education \$ _____

(Divide total operating cost by number of students enrolled in driver education)

The principal shall complete, sign, and send copies of forms DE-3, DE-3A, and DE-4 to the Superintendent who will sign, file a copy, and email a copy of each form to the Mississippi Department of Education, Office of Safe and Orderly Schools, Division of Driver Education within ten (10) days after the completion of the course. For example, if the school taught driver's education for the fall and spring semester (the entire school year), send the completed forms within ten (10) days after the last day of school year for both fall and spring semesters. If the school taught driver education for only one semester or summer session, send the forms within ten (10) days after the completion of the course at the end of the semester or summer session.

I/We certify that the above answers are true and complete to the best of my/our knowledge. I/We understand that the school must have an approved DE-1 application on file within the Mississippi Department of Education, Office of Safe and Orderly Schools, Division of Driver Education before any driver education course is taught for the regular session or summer session to be considered for reimbursement for the school year. I/We understand that failure to not have an approved DE-1 application for the school year and failure to submit the required forms within the specified time can result in the school/district not being reimbursed for teaching driver's education.
