EDUCABLE CHILD PROGRAM**

NAME OF PRIVATE SCHOOL, PAROCHIAL SCHOOL OR FACILITY

Appropriate Education: The school or facility provides appropriate educational programming for students with disabilities.

Confidentiality: The school or facility will protect the confidentiality of all data in its records relative to students with disabilities.

Protection in Evaluation: Evaluation materials and placement procedures used by the school or facility will be, to the maximum extent possible, selected and administered so as not to be racially or culturally discriminatory such that no student is misclassified, misplaced, or unnecessarily labeled as having a disability because of inappropriate selection, administration, or interpretation of the materials or procedures. Appropriate instructional interventions are implemented as required in State regulations.

Least Restrictive Environment: The school or facility will, to the extent appropriate, educate students with disabilities with students having no disabilities in their age range. The removal of students with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with supplementary aids and services cannot be achieved satisfactorily. A continuum of alternative placements, based on the individual students' needs, is provided to students with disabilities in the school. Placement of students is determined on at least an annual basis. In selecting the least restrictive environment for each student, consideration is given to any potentially harmful effect on the student or the quality of services needed. If a student with a disability can function socially, emotionally and mentally with students without disabilities of a similar chronological age, he/she will be given that opportunity.

Individualized Education Program (IEP): The school or facility will ensure that all IEPs for those students who are placed by school districts and the Department of Human Services meet the requirements of Section 636(d) of IDEA, and are developed, reviewed and revised in accordance with Section 300.320 through 300.324 of State Policies Regarding Children with Disabilities under IDEA Amendments of 2004.

Educable Child Form for Parentally Placed Students: The school or facility will also complete the Educable Child Form for Parentally Placed Students documenting the placement options considered.

Procedural Safeguards (Due Process): The school or facility ensures that students with disabilities and their parents are guaranteed due process with respect to the provision of an appropriate education.
