REPORTING CHANGES | Incident Behavior Type and Disciplinary Actions Taken

All incident reporting data will transfer nightly from the SIS.

- All incidents will be reported as **single events with each student's disciplinary action linked to the incident**. (Legacy reporting required the incident to be repeated for every student involved.)
- Gang-related is no longer an incident, but it will be collected as Secondary Incident Behavior.
- Alternative school placements will be collected as disciplinary actions taken and not incidents. For historical purposes, the following alternative school codes will be recorded as "03072 – Change of placement (long-term)":
 - ASFY – Begins School Year in Alternative School
 - ASCO – School District approved Court Order
 - ASCP – Alternative Education after Corporal Punishment
 - ASGD – GED Option
 - ASHS – Alternative Education after Suspension
 - ASOS – Arrest for Crime off School Property
 - ASPR – Parental Request
 - ASRR – Remedial Reason
 - ASSA – School Attendance
 - ASTS – Release from Training School

Beginning with 2024-25, all alternate school placements should be reported in one of the "Change of placement" codes above (03072, 03074, 03073, 03075).
- Firearm and weapon types used during an incident will be collected separately from the incident behavior.
- Disciplinary action length difference reason will be collected. This is used when disciplinary action length is modified by a district, a court order, etc. *This data element will be optional for SY 24-25.*

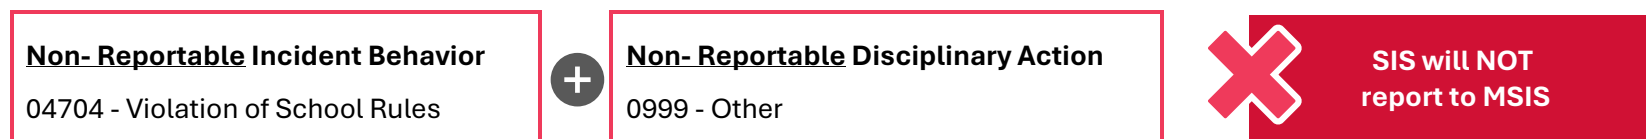

WHAT IS REPORTED | Incident Behaviors and Disciplinary Actions Taken that will be reported by the SIS

If the Incident Behavior AND Disciplinary Action taken are non-state reportable, the incident should not be reported to MSIS.

If the incident involves a non-reportable Incident Behavior **AND** a non-reportable Disciplinary Action Taken, then the SIS **WILL NOT** report the incident to MSIS. Below is a list of non-reportable Incident Behaviors and non-reportable Disciplinary Action Taken and an example of incidents that would not be reported.

- Non- Reportable Incident Behaviors: 04704 – Violation of School Rules
- Non-Reportable Disciplinary Action: 0999 – Other

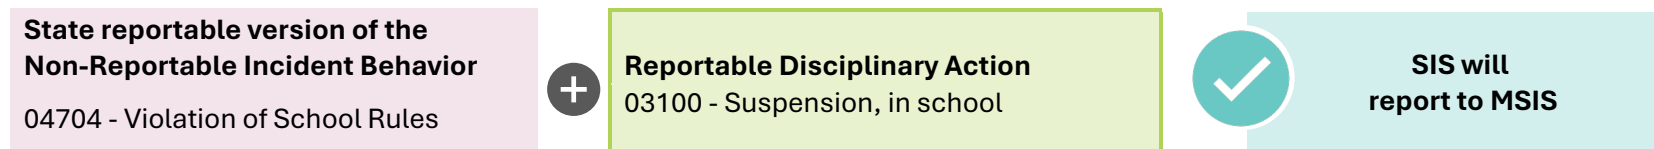

INDICENT: A student was not following directions from the bus driver while the bus was in motion. The student was not allowed to ride the bus for two days.

If the Incident Behavior OR Disciplinary Action Taken are state reportable, the incident MUST be reported to MSIS.

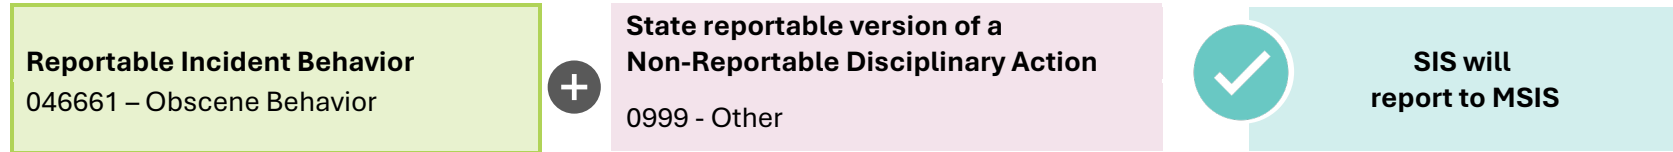

If the incident involves a non-reportable Incident Behavior **AND** a reportable Disciplinary Action Taken, the incident must be reported to MSIS. To report the incident to MSIS, districts should create a state-reportable version of the non-reportable Incident Behavior (i.e., Violation of School Rules). Districts must use this state-reportable version of the Incident Behavior along with the state-reportable Disciplinary Action Taken so that the SIS **WILL** report the incident to MSIS.

INDICENT: A student was not following directions from the bus driver while the bus was in motion. Because it was a repeat offense, the student was assigned in-school suspension.

If the incident involves a reportable Incident Behavior **AND** a non-reportable Disciplinary Action Taken, the incident must be reported to MSIS. To report the incident to MSIS, districts should create a state-reportable version of the non-reportable Disciplinary Action Taken (i.e., Other). Districts must use this state-reportable Incident Behavior along with the state-reportable version of the Disciplinary Action Taken so that the SIS **WILL** report the incident to MSIS.

INDICENT: A student was using profanity on the bus. The student was assigned morning detention.

EXAMPLES | Incidents and Disciplinary Actions Taken

Each incident will be reported with a unique identifier. One or more students may be connected to each incident. Information about perpetrators associated with the incident will be collected, but not victims. Each perpetrator may have different types of disciplinary actions.
