Senior Snapshot

ACCOUNTABILITY

Senior Snapshot is a method of identifying high school students for the high school assessment participation rate calculation and College- and Career-Readiness measures for Accountability.

See [Mississippi Public School Accountability Standards \(2024\)](#)

Senior Snapshot captures ALL students who have been enrolled in a Mississippi public school starting in month one (1) of the 10th grade and continuing without interruption until either the end of month 9 of the 12th grade or until a completion status is entered, whichever comes first. If the student does not meet the enrollment criteria, he/she will not be included in the denominator for participation rate calculations or College- and Career-Readiness measures.

High School participation rates will be calculated based on the Senior Snapshot.
Data from all MAAP Assessments and the ACT will be used in the participation calculations.

See [Mississippi Public School Accountability Standards \(2024\)](#)

Districts can request an update of Senior Snapshot participation rates for the previous school year's graduating class.

The image shows a three-step process for exporting data from a web application. Step 1: A table titled 'US History Participation' with columns 'Student' and 'Participation'. The 'Participation' column contains the word 'Tested' for five students. A red circle highlights a three-dot menu icon in the top right corner of the table. Step 2: A dropdown menu is open, showing options: 'Export data' (with a document icon), 'Show as a table' (with a table icon), 'Spotlight' (with a spotlight icon), 'Get insights' (with a lightbulb icon), 'Sort descending' (with a Z↓ icon), 'Sort ascending' (with a ✓ A↓ icon), and 'Sort by' (with a right arrow icon). A red arrow points from the 'Export data' option to the next step. Step 3: A dialog box titled 'Which data do you want to export?' is shown. It contains three radio button options: 'Data with current layout' (selected), 'Summarized data', and 'Underlying data'. Below these options is a 'File format:' section with a dropdown menu set to '.xlsx (Excel 150,000-row max)'. At the bottom right, there are two buttons: 'Export' (highlighted with a red circle) and 'Cancel'. A red arrow points from the 'Export data' option in the dropdown menu to the 'Export' button.

Cohort

ACCOUNTABILITY

MISSISSIPPI
DEPARTMENT OF
EDUCATION

Cohorts are used to calculate Graduation Rate for Accountability purposes.

A student enters a cohort when they enroll in 9th grade for the first time. Once a student is placed in a cohort group, they remain in the cohort regardless of whether they repeat or skip a grade level during the four-year period.

Students who enter a Mississippi public school in a grade higher than 9th grade (or peer grade equivalent higher than 9th grade) are placed in the same cohort as their peer group. A student transferring from a private/non-public school to a Mississippi public school in Grades 10, 11, or 12 will be placed in the same cohort group as the current students in Grades 10, 11, or 12.

See [Four-Year Adjusted Cohort Graduation and Completion Calculation Guidance for Districts and Schools](#)

Final Status Indicators

At the end of the four-year tracking period, the entire set of MSIS data pertaining to the student will be examined chronologically (from the earliest available recorded events to the latest), and any “final disposition” events will be identified.

Final disposition events captured by the system include dropouts, documented transfers out-of-state, documented transfers to a non-public school, death, and school completion. Transfers within the public school system are not considered transfer events.

See [*Four-Year Adjusted Cohort Graduation and Completion Calculation Guidance for Districts and Schools*](#)

It is the responsibility of the school/district of final enrollment to ensure that the final status of the student is correct, regardless of the student's final status assignment.
