The screenshot shows the MSIS (Mississippi Student Information System) dashboard. At the top left is the MSIS logo with the text "MISSISSIPPI STUDENT INFORMATION SYSTEM". The top center displays the greeting "Welcome Melissa Banks" and the date and time "1:52 PM Tuesday, October 10, 2023". On the left, a vertical navigation menu includes "Home" (highlighted with a red circle containing the number 1), "Administration", "Data Submission", "Reports", "Students", and "Data Input", each with a dropdown arrow. At the bottom left of the main area is the user name "Melissa Banks" with a dropdown arrow, and a red circle containing the number 2. The main content area features three alert tiles: a green tile with a checkmark icon and the text "Files Uploaded" (number 3), an orange tile with a warning icon and the text "Ownership conflict to review" with a "Review" button (number 4), and a pink tile with an exclamation mark icon and the text "Your data has errors" with a "Review" button (number 4).

MISSISSIPPI  
DEPARTMENT OF  
EDUCATION

MSIS OVERVIEW

The Mississippi Student Information System (MSIS) was created to comply with the Performance Based Accreditation Model established by the Education Reform Act of 1982. This creation was strengthened by further legislation in 1994. This legislation placed an emphasis on the accurate reporting of student attendance and personnel at the school level – it required that there be no more summary data sent to the State Department of Education. MSIS was created to capture the data necessary to comply with state legislation and federal reporting requirements.

MSIS provides for the electronic collection and storage of comprehensive, detailed data about teachers, administrators, students (PreK to 12), and school board members. MSIS also allows for the electronic transfer of student records from one school district to another, thus offering a unique student tracking system. The purpose of this project is to provide an efficient means in which to:

- Support the Mississippi Department of Education (MDE) performance-based accreditation model
- Support education funding programs
- Provide timely and accurate reporting of education data (schedules, attendance, grades, transportation, discipline, Vocational, and Special Education) to meet state and federal requirements
- Allow for student tracking across the state to determine student mobility trends and to assist in the reduction of the drop-out rate within the state.

Legacy System
